

We, the Class of '52, owe a great debt of gratitude to the Christian Brothers who have taught us and worked with us during our four years at Cretin. There are, however, two Brothers who were formerly attached with the department to whom we are particularly indebted. They are Brothers Lea Vincent and H. Frederick. Our acknowledgments to Brother Vincent will be found here; to Brother Frederick, on the inside back cover.

Brother Lee Vincent came to Cretin in the fall of 1948 from Christian Brothers' College in Memphis, where he had been the Senior Department moderator. Upon arrival here he was appointed moderator of the Class of '52 and advisor of 207. He

inaugurated a new governmental body, the Departmental Council, to replace the usual four class officers. A twelve man council provides equal representation from each advisory and a wider opinion can be expressed than by the perennial "Big Four". This Council has continued throughout the remaining three years, with an election held annually, and has provided our department with the best possible governing policy. Brother Vincent deserves credit both for its splendid organization and for his direction

of it the first three years.

In our Sophomore year, Brother organized a new group of Choristers. It was a full, four part chorus, its members numbering about thirty. Their first performance was at the Christmas Concert that year, where they presented Brother Vincent's own arrangement of "The Christmas Story". It was evident to all those who were present at the concert that Brother Leo Vincent had a great number of musical talents. Teaching the boys, some of whom knew very little about music itself, to combine their voices into a strong male chorus and to sing with expression was perhaps his greatest. During his two years as director, the boys were applauded greatly during many appearances and were truly above the high school male chorus rank. He himself could sing all four parts (trying hard), but was a natural baritone. As for playing the piano, it goes without saying that he was versatile and equally excel-

lent in any style. On many occasions be showed his writing and arranging ability, which was quite unique.

After Christmas that year, talk of staging an operetta began with Brother and the Choristers. Soon the music arrived, and an adventurous three and one-half months began. There were weeks of hard practice which did not end for some until opening night. But Brother Leo's spirit kept everybody singing happily and made them remember the correct ideas he had instilled into their minds. The cast, made up of Cretin's Choristers combined with the talents of three St. Paul girls' schools, had to learn everything from the bottom up. Many of them had never walked on a stage previous to the learning of their part, large or small, of Victor Herbert's "Red Mill". The mixed choruses had never sung together. Brother Vincent had a job ahead of him. Directing the chorus cast of sixty and the leads' singing to perfection, and also taking part in the direction of choreography and general staging worries, was no easy task even for a man with his musical and theatrical talents. But Brother Vincent had the experience of producing an operetta at Memphis, so his capabilities were known to himself.

There was one idea in the mind of Brother Vincent and of his partner, Brother Frederick: the show was to be run off strictly professional. This they dinned into the ears of the eighty cast members and to the members of the orchestra, which included some professional men who had played the "Red Mill" in Chicago with some well-known stars. These musicians, and a number of local dramatic heads and critics, along with the large audience, all agreed that Cretin's production of the "Red Mill" had no appearances

of an amateur show. This was ample reward to the directors.

In the fall of our Junior year, Brother Vincent, together with Brother Frederick, organized a regular Dramatic Club. A series of one act plays in the fall was followed by a Christmas choral presentation. In the spring of this same year, "The Doctor in Spite of Himself" was staged, followed up by Cretin's second highly successful operetta in two years, Sigmund Romberg's "The Student Prince."

The operetta of course was the big task. A harder show than "The Red Mill" to be produced, it nevertheless was of the highest calibre, the Twin Cities' critics stated. The fine female chorus and leads were members of the Choral and Dramatic Clubs of a Minneapolis girls' academy.

And thus it was to be, that Brother Leo Vincent closed out his extracurricular activity work at Cretin with some very hard

work which resulted in an extra-fine musical extravaganza.

We, the class of '52, feel one would be looking long to find anyone who has contributed more to a school than Brother Leo Vincent has in the way of organizing and directing social activities, and one would seek an even longer time for another who has given more to a class than Brother in the manner of molding for it a good government, by guiding it and advising it. He excellently fulfilled his duties as the department's moderator.

The prime purpose of the Christian Brother is to teach. The leadership, singing and acting qualities brought out by Brother Vincent in his extra curricular activities were valuable to learn. They are of even greater importance to some than a number of courses taught in the class room. They are important to all for the poise and confidence they offer to bring out in an individual.

Brother Vincent taught religion and Senior English in his first two years at Cretin. In his final year his classroom time was occupied with religion and 2nd and 3rd year Latin courses. In many of his classes, Brother's pupils not only learned from fulfilling the required subject work, but were endowed with a philosophy of life that would and should be remembered by those who listened attentively and thought it worth while.

Brother Leo Vincent entered the Christian Brothers in September of 1934. Exactly nine years later, he pronounced his final vows. He has taught in Glencoe, Chicago, Montreal, Memphis, and St. Paul, and is now teaching in Kansas City. His favorite, he says, was teaching English at Cretia; his greatest pleasure, he admits humbly, was derived from the three years he spent with the

class of '52, together with Brother Proderick.

In closing then, to Brother V. It, the tall, dark, handsome man with the big, deep voice and the matchless cow-lick, together with the flashing teeth in the acceptance with the flashing teeth in the acceptance with the class of '52, would like to say simply, "Thanks for everything." We know that you understand.

ARCHBISHOP OF ST. PAUL

James Joseph Byrne, D. D.
AUXILIARY BISHOP OF ST. PAUL

DEDICATION

In the past hundred years, many men have taught in the institution known as Cretin High School. They have taught in various locations and under ever-changing circumstances. But, regardless of the conditions which existed, one aim was shared by them all—to aid in the mental, physical and religious growth of the Christian boy. Their methods were not always similar. They sometimes seemed contradictory, but no matter which road they took, the goal was always the same.

In the same hundred years, many boys have attended the institution known as Cretin High School. Over this span of time, the boys have seen the school move to several locations. However, no matter where they had to go to attend school, the result was always the same. These students learned, by example, instruction and association, the valuable lessons which enabled them to grow mentally, physically and spiritually. They had their differences and their likenesses. They agreed in some cases and disagreed in others, but when they graduated each one knew what it meant to be a Cretinite.

This book, then, is dedicated to the men and boys who hold their heads high—proud to be called Cretinites. But especially to the teachers who have raised the heads of these young men so that they could see their ultimate goals shining before them.

THE CLASS OF '52

FACULTY

A teacher affects eternity; he can never tell where his influence ends.

Henry Adams

BROTHER J. MATTHEW, PRINCIPAL, DIRECTOR

ADMINISTRATION

It always seems to be the case that the entire burden of running a school efficiently and smoothly is given to a few ii dividuals. Much time and effort are required and it is beyond a doubt a man's zed job. The task is never easy and its rewards are few. It is therefore appropriate that we honor those three men who deserve our deepest appreciation and heartfelt thanks for their unselfish devotion in the administration of Cretin High School

The two feld duties of Principal Director were placed in the capable hands of Brother J Matthew This was Brother's second year as principal at Cretin but only his first year as director He was dways best improving conditions around the school but he was never too busy to I sten to any lov who sought his advice. It was his firm belief that the boys made up the school at d to grore divione of them was a definite livity on the part of the administration of the school. Notice who has even talked with him can ever forget has far mindedness and genaine interest in every cadets problem. Brother Matthew has made a deep impression on everyone by his carriest endeavor "to please all of the people all of the time." He will long be remembered for his smiling face and his deep insight into the problems and complexities which face every boy as he travels through high school.

Brother Mark has the distinction of being the Director of Discipline at Cretin. This job calls for a keen understanding of high school attitudes and problems, as well as the ability to handle them. The cadets know all toowell that he takes his position with all seriousness, but he has never been known to be harsh or unfair. Problems inevitably arise in a school the size of Cretin, but as long as Brother Mark is around, it can be safely said that they will never get out of hand.

Discipline was not the only field in which Brother Mark was well versed. He also taught chemistry to the Semors, acting as moderator for the Chemistry Club, an organization founded for the purpose of allowing interested students to further their knowledge in that held. The Sophomore Class also claimed the services of Brother Mark as their moderator

Among the more important of Brother Mark's duties was probably his most satisfying and rewarding, the position of moderator of the Benildus Club. The club was formed for the purpose of helping Seniors to decide what they will do after graduation from high with a brooker Wick has have a notice of a portant phase of ther re-

BROTHER L MARK Sub-Director Die to d Dapin

BROTHER LAWRENCE WALTER Assistant Principal Vocational Guidance

The years a boy spends in high school do much toward determining what his life's work will be when he leaves. The boy is indeed the man in miniature. Fully aware of this fact, Brother Lawrence Walter began, many years ago, to pioneer in the field of vocational guidance in high school. His experience in this field has been of incalculable value to the entire school

Upon a student's arrival at Cretin, Brother Lawrence Walter fills out a file card beginning with the boy's score in the entrance exams. He records each cadet's semester marks and also his percentiles in the co-operative tests. An accurate knowledge of every boy's interests and abilities can be gained from his tests and evaluation sheets. These tests include preference tests to determine in what categories the student has the strongest interests. This will help a boy to eliminate some jobs in which his interests would be weak. Many tests are also designed to ascertain in which fields the student has the most

With all this information at hand, Brother will sit down with each Senior and discuss his plans for college and what he intends to take up as his life's work. These discussions are a great help to the boys. It is obvious that when a fellow reaches his Senior year, he will see much of Brother, who has taken as his life's work the job of helping others decide on theirs

Brother Timothy, a newcomer to the Cretin faculty this year, has, in this relatively short hme, established himself among the students as a truly remarkable figure. Upon his arrival here at school, he commenced his duties as a teacher, assembly moderator, Senior Class Moderator and golf coach. However, his service in these capacities was interrupted for the duration of several months, when, due to an automobile accident, he was forced to abide in a hospital ward. After a successful, but unfortunately lengthy, recuperation, his former duties were resumed.

The Brother's vivacity and active interest in school affairs, have caused him to be regarded with awe and respect by many. This vitality, coupled with his unique brand of humor has made Brother Timothy a most popular and successful teacher

The 51 51 school year saw the arrival of Brother Josephus at Cretin, where he immediately assumed his position as advisor of 203. From the beginning he conscientiously applied himself to the tasks of teaching, aiding the students in their studies, and counseling and guiding them along the path toward manhood. His wholehearted efforts, tempered further by many a well placed smile, have gained for him the confidence and friendship of the students.

Realizing that sports, in their place, constitute an important factor in the forming of character and the maturing of minds and bodies, Brother Josephus has always given unselfishly much of his time to the furtherance of many sports at Cretin At present he is coach of the "C" basketball and "B" base-

ball teams

Belonging to the younger set of teachers at Cretin is Brother Virgil, the most recent addition to our school's faculty. Having arrived at Cretin in January, Brother set about his various tasks, not the least of which was his position as advisor of 207. Brother Virgil wasted little time getting into the full swing of affairs; he sumed, in general, the duties of Brother Martin, who had left for a southern chine at the close of the first semester.

His earnestness in teaching and his attractive personality, have earned for the advisor of 207 the friendship of his students

ed the control of the

Ten graduating classes have each successively passed through the halls of Cretin High since Brother Prus first joined the ranks of our faculty. And ten graduating classes have each successively recognized the sterling character of that same Brother. In his many vears as a Christian Brother, Brother Pius has proved to be a most versatile teacher, and, although the complex sciences have claimed most of his attention, and have required a goodly share of his abilthes, his foremost interest has been focused upon the field of nature, especially animal life. And undoubtedly his favorite subject in this category is the study of birdlore. The Brother has even taught a course in that subject. Supervising the cafeteria is another of his activities which he has efficiently done for the past two years.

It is true that a good teacher must possess not only a thorough knowledge of the subject he teaches, but also keen insight, sincerity, ready wit, and amiability. These virtues contribute to his popularity and also to his ultimate success as a teacher, advisor, and counselor.

Those of us who have known Brother Raphael, real ize that he fulfills the above criteria. Natural inclination and genuine interest, coupled with experience in the fields of Religion and English, have given him surpassing knowledge of those subjects. His kindly attitude toward the students, his unusual teaching methods, and frequent with remarks, add up to the unanimous decision that Brother Raphael is one of the most valuable and loved teachers ever to be stationed at Cretin.

Mrs. A. Nelson Librarian

The thirty-fifth year of military at Cretin has come to a close. Since its organization here, it has brought noteworthy recognition to the school by repeatedly meriting the Honor School rating

Much of the credit for our success in military must be given to the men who have devoted long hours to our training, discipline, and the building of our characters

Major John C. Allan, filling the position of P.M.S.&T can be thanked for many of the goals we have reached and the high standards we hope we have set. The more than ten years of Major Allan's experience have made him qualified for the position he holds. He has always done his utmost to graduate us with the best record possible, and for this we extend our sincere thanks

Shortly after the beginning of the year, Major Elmer V. Loch, a Korean veteran, arrived to fill a position which he had requested. After assuming the duties of Assistant P.M.S.&T., he also found time to moderate the Officers Club. Major Loch's previous teaching exper-

ience at Fort Benning, Georgia, is easuly recognized in the way he has handled the affairs of the Cadet Corps.

With the new year, still another addition to the military staff was made Captain Charles Davis, another Korean veteran, took charge of instructing the Seniors and also was made military advisor to the Military Police. As Senior instructor, Captain Davis could be depended upon for good advice whenever it was needed

To these men, and to all of the Milstary Staff the Seniors extend their gratstude on behalf of the Cretin Corps of Cadets. We hope our few difficulties are forgotten, and that only the good remains in memory of the Seniors of '52

STUDENTS

Looking back through memory's haze, we will find life had nothing sweeter than its springtime

Romberg's "Student Prince"

CLASS OFFICERS

PRESIDENT

EDGENE J PIERRE

Recognizing his terrific personality and leadership, the Class of '52 elected Gene Pierre as class president. As a four year member of the Student Council, his ideas, suggestions and counsels aided the class in making great strides toward its present state. Scholastically, he earned the Merit Medal in all of his years at Cretin and was elected to membership in the National Honor Society.

Gene was a loyal, ambitious stalwart on the debate team. His endeavors gained him a high rating in the State Tournament. As a four year member of the swimming team, "Poj" strove for the top. This year as cocaptain, he led the team to one of the finest aquatic years in the annals of Cretin High. In his third year as a "Brothers' boy" he stepped into the training of the lane of the lane.

Appearing frequently on the panel of the Nazareth Conferences, Gene made these meetings all the more interesting and beneficial with his sincere comments. He also coached basketball teams which were strong contenders for championship honors in the C. A. A. and municipal leagues during the past two years.

The justice with which "the pres." treated each and every member of the class was remarkable. His friendliness in and out of school cheered and brightened the lives of those around him.

ARE SATTIONAL

One of the greatest assets the Class of '52 possessed was class vice-president, Art Shields. His keen mind and never ending store of talent did much toward making the class a finished product. As an all around performer, no one in the class came near him. His endeavors with a baseball, basketball or football were most widely publicized, for he was Co-captain of the basketball team and All-Conference in football. Art was also the Conference's leading scorer in football.

Art, however, never devoted all his time to any particular phase of endeavor. For four years he was a member of the Student Council, acting as Chairman for three. Many an assembly was enlivened by his proficient piano playing. As a four year member of the Choristers, Art used his singing voice to the fullest extent He participated in two operettas, having a major role in one of them. As a member of the Debate team, he showed the fast and logical thinking which has typified his work at Cretin. He was a Lieutenant Colonel and ranked scholastically among the top fifteen in the Class. Art became a member of the National Honor Society and won the Ment Medal each year

Art is indeed ready to take his place in the world as a good Christian. This thought was always uppermost in his mind, for in spite of the many responsibilities which were always pressing him, Art could be seen daily straightening out his problems in the chapel

ARTHUR R. SHIELDS

WHERE THE SHE

Always sporting a friendly smile and willing to do any job given to him, the state of the same and willing to do any job given to him, the state of the same and willing to do any job given to him, the same of the same and the same and the same of the same of

As a member of the football team, "Rass" was a letterman for two years, but was unable to be used to best adviantage due to several injuries. His feats on the basketball floor were something to see and as a sophomore, he wrote his name into the Cretin track team's record book. More than one opponent has been forced to view the Rasmussen heels at the end of a race

Bill has been a member of the Student Council each year during his stay at Cretin. His ideas were always noteworthy, and he always was ready to help on any project that the class undertook. Bill's qualities of leadership were unquestionable. He was not a forceful leader but prefered to take a back seat and make helpful suggestions. These suggestions, however, were almost always accepted by the boys and so, in effect, he led them without their knowing it.

acity for success, then you can watch for Bill Rasmussen to be one of the successful members of the class of '52.

THEAMBIEN

Once in a blue moon is there found an individual who combines all the traits found in class treasurer, Norb Anderson. It would be impossible to reject the warm friendship offered by "Nubs". His four years at Cretin were both successful and happy. Each year found Norb a member of the Student Council He put all of his energy behind everything he attempted, and the things he attempted were several and varied

For four years, Norb learned and practiced the fundamentals of football For three of these years, he was forced to take a back seat. After all the work he had put into the game, it would have been enough to discourage anyone, but not "Nubs" and when he came back for the fourth time to try again, he found a place waiting for him on the starting lineup. As the starting guard, Nubs and the many seasons are the starting guard. It is to be a substant of the place of the starting guard in the starting guard, he was a many seasons to be substant of the property of the starting guard. It is the starting guard in the starting guard in the starting guard in the starting guard in the starting guard. It is the starting guard in the starting guard in

Norb would gladly suffer any inconvenience to help a friend, and his friends include almost everyone who has ever met him. His genial manner and unassuming attitude along with his generous and friendly nature made him popular in any crowd. Although his ability to handle money and to manage profitable ventures made Norb a perfect choice for treasurer, his class-mates will always remember him as "The Nubber" long after they have forgot-

NORBERT | ANDERSON

JAMES M HARE

ten the office he held

SGT. AT ARMS

A wonderful blend of leadership and athletic prowess is to be found in Jim Hare, sergeant-at-arms. As a four year member of the Student Council Jim impressed everyone with his ideas and hard work. There was no room in his good graces for anyone who couldn't cooperate. Any job he started out on was completed as rapidly as perfection would allow. As advisory president for four years, Jim made 202 one of the best groups in the school.

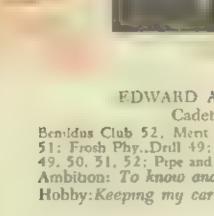

On the athletic field, Jim showed the same thoroughness and hard work He was a stickler for training, and every game was the big one for him. His endeavors were appreciated, however, by everyone who saw him in action. If you put a baseball in his hand be could dazzle any batter. Put a football there and you would see him batthing the opponents with perfect handoffs and accurate passes. A basketball in the famed Hare hand became a dangerous scoring weapon from anywhere on the floor. Jim was a two letter man in football and an All-Conference quarterback. He won three letters in baseball and ranked among the best pitchers in the state. His basketball career was limited to the "B" squad, because he elected to play with teams in the city league rather than with the Varsits

Lefty's industrious and friendly nature won friends for him everywhere he went and will no doubt continue to do so. The success he has achieved at Cretin is only a preview of the future.

JUNIORS

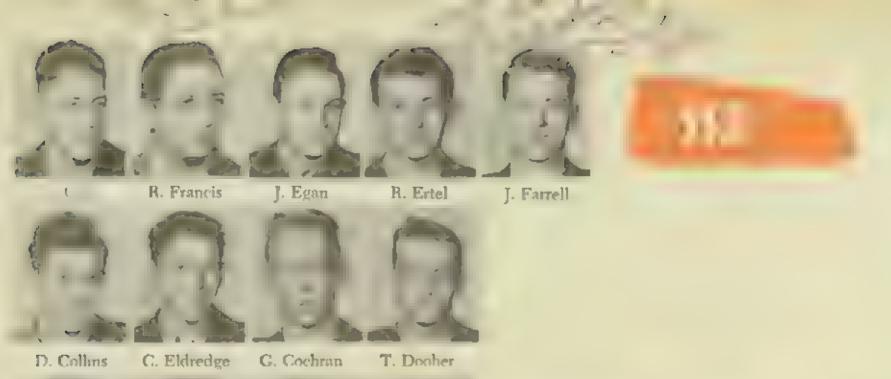

The members of the Junior Class have proven themselves versatile in all school activities. Under the moderation of the amiable advisor of 113, Brother Gerard, the class has had three quite successful years.

Beginning with first things first, there are many consistent honor roll students, and many more who are not quite as diligent, but who occasionally have the necessary grades. Although not the highest class in scholastic standing, its record sufficiently indicates the calibre of its

Athletic s probably the field rawled the Jamors are most outstanding. The success of the football team was part is the for or meraters if the son it and in asketball, hockey, swimming and baseball, they played a very important part. These accomplishments indicate that athletics will be no problem when this class takes over

The class talents are also spread over many other fields. In the Band, Glee Club, Dramatic Club, Debate Team, Comment and other activities, the Juniors are and will continue to be an important factor.

J. Dalglish

1. Curran

M Custek L Gaiovnik

Make 'em shine

With Brother Cerard as advisor as well as their department moderator, 113, with its great potentialities, has developed into an all-around good advisory. In sports "Doc" Dolan, with experience in tenthed townthed one reached along with tell John Carrar 80,) held center position in basket bal, piced the Cretin sipals Carson Champin besides being advisory secretary, held a berth on the "A" hockey team. Tom Dooher, 113's president, kept busy with the Leadership Club, Apostleship of Prayer and Baseball team. Track and basket n form the tree of Jan Daglish while the bir l is the main interest of Jim Egan and Leon Cich. The Dramatics Club found a superb stage electrician in the personage of Jim Farrell. The COM-MENT claimed John Curran, advisory Vice-pres., as editor-in-chief for next year.

113 is always interested in school activities, having been among the leaders in collections and magazine drives. Nearly all its members attended sporting events consistently.

P Casev

1 Dittberner

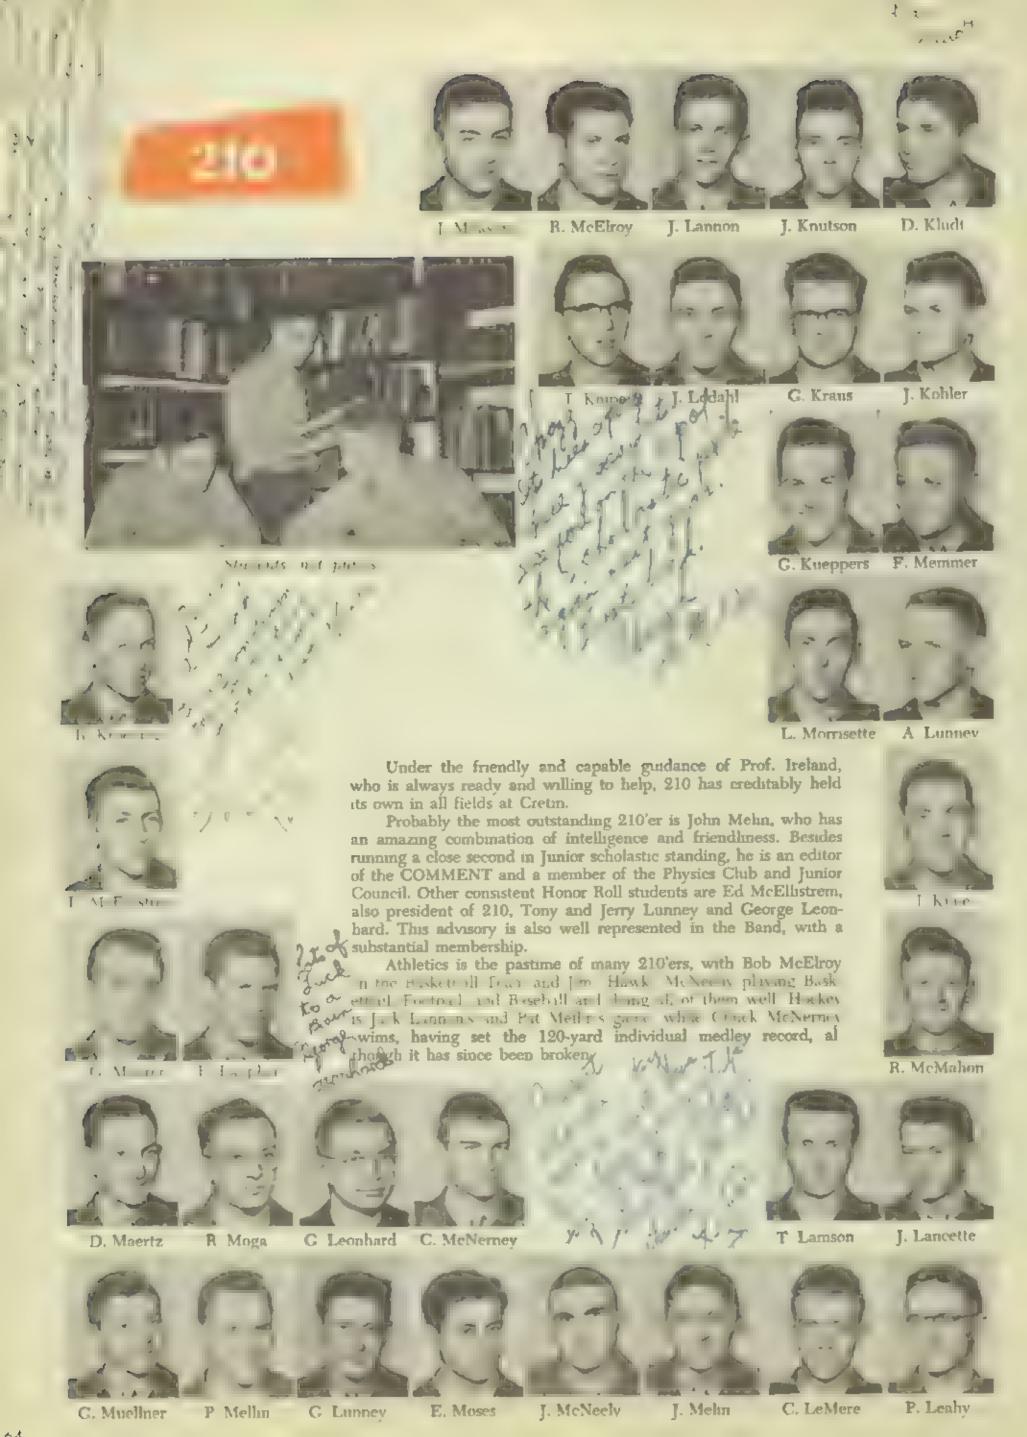

]. Evanson

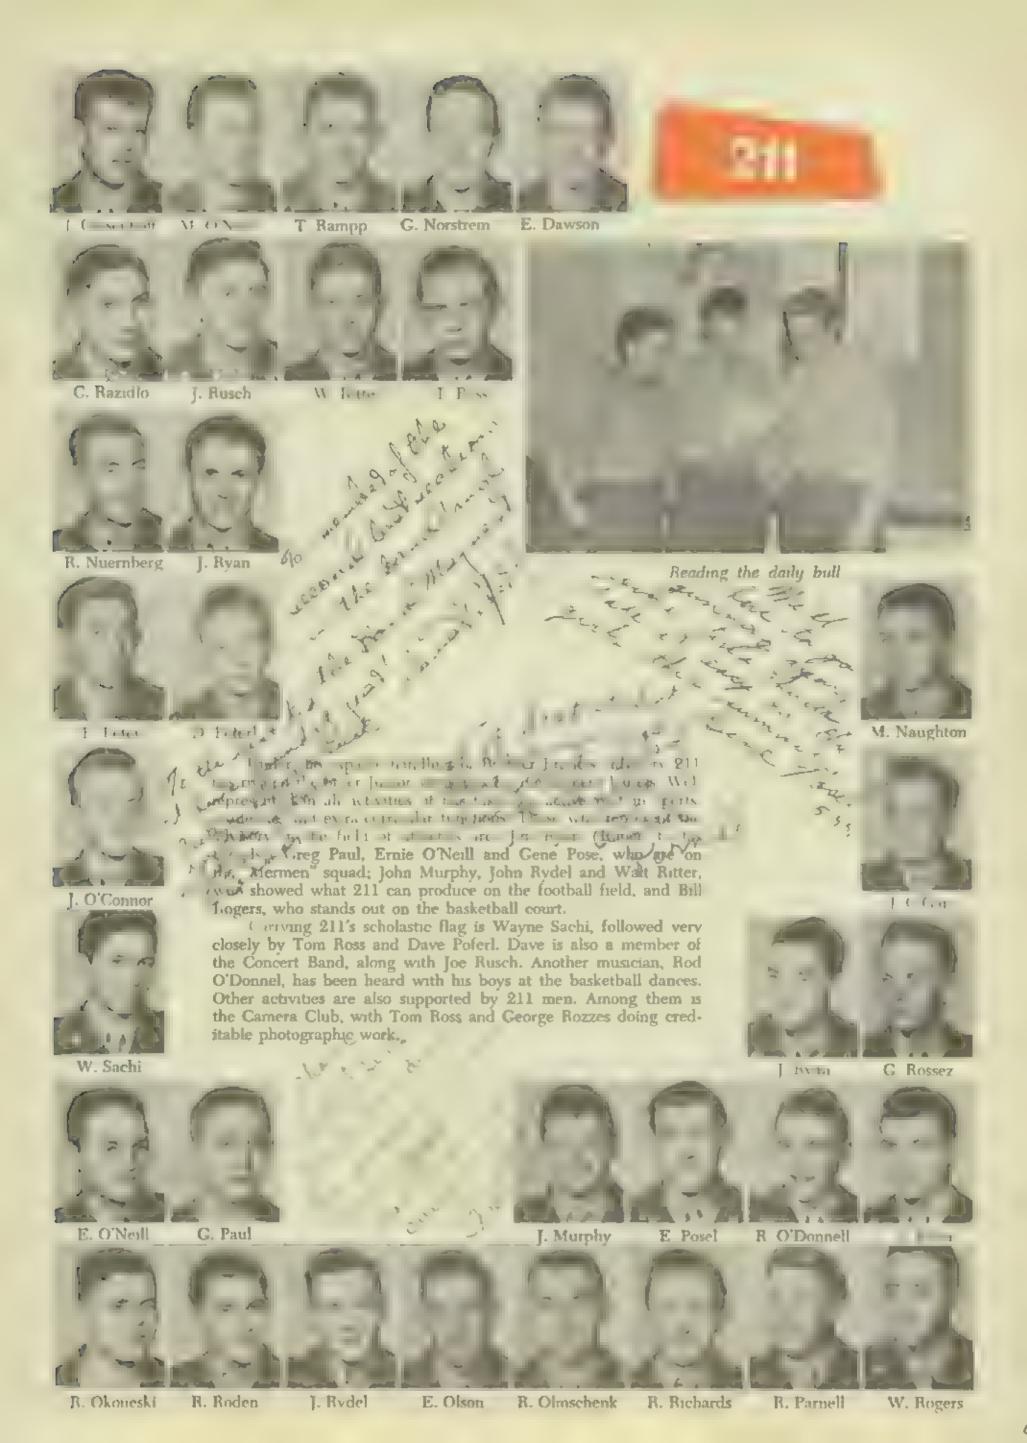

J. Fangel

C. Champlin

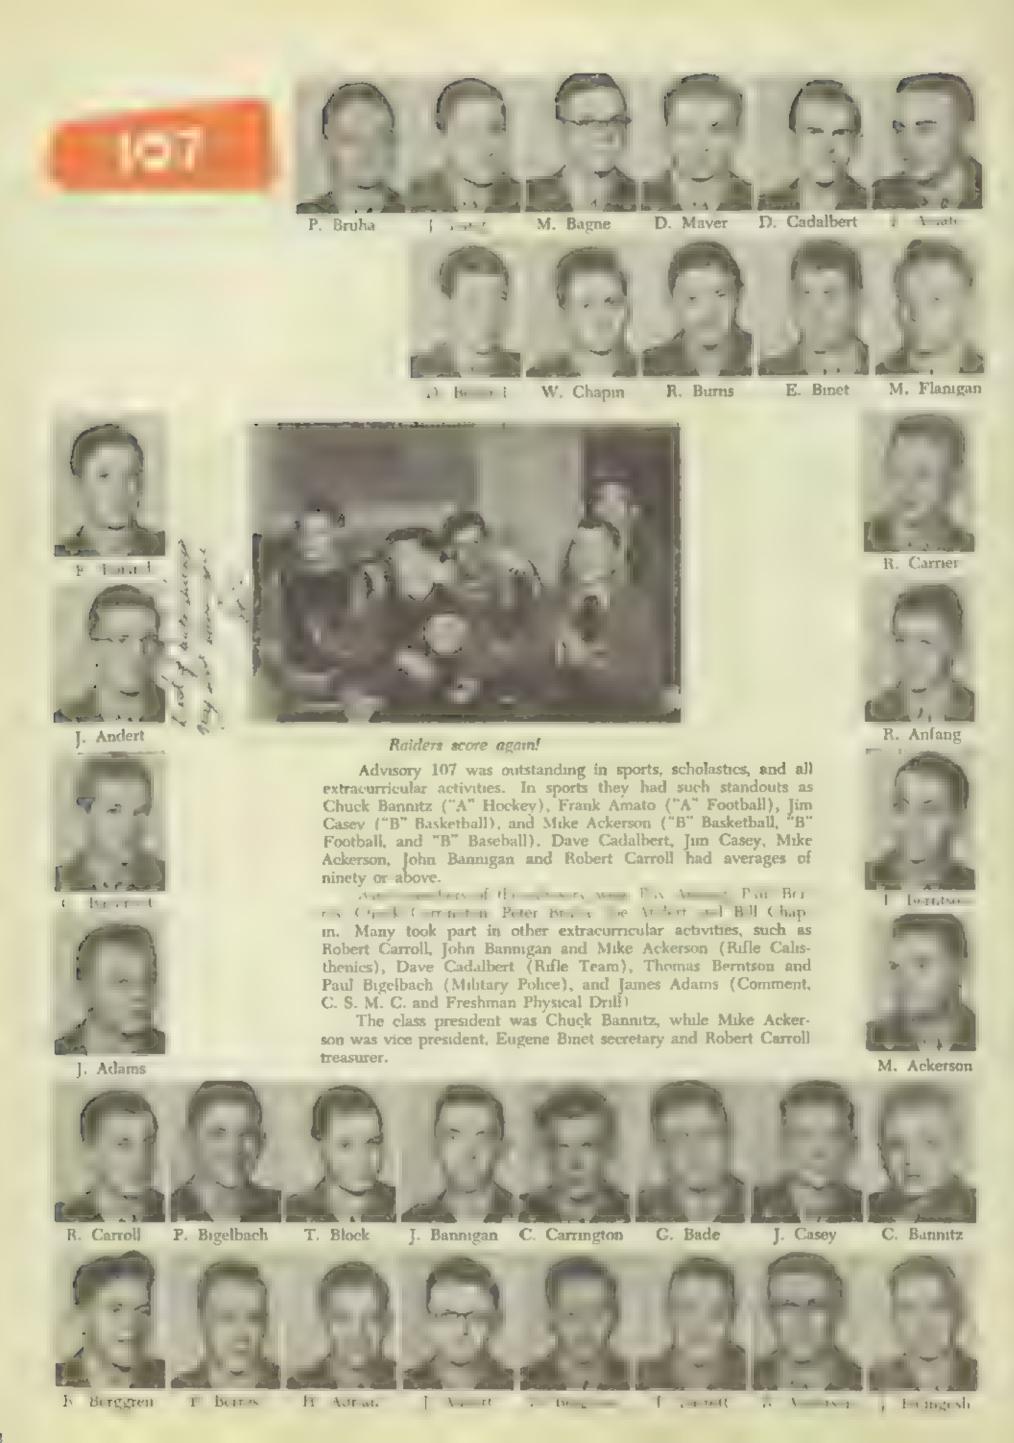

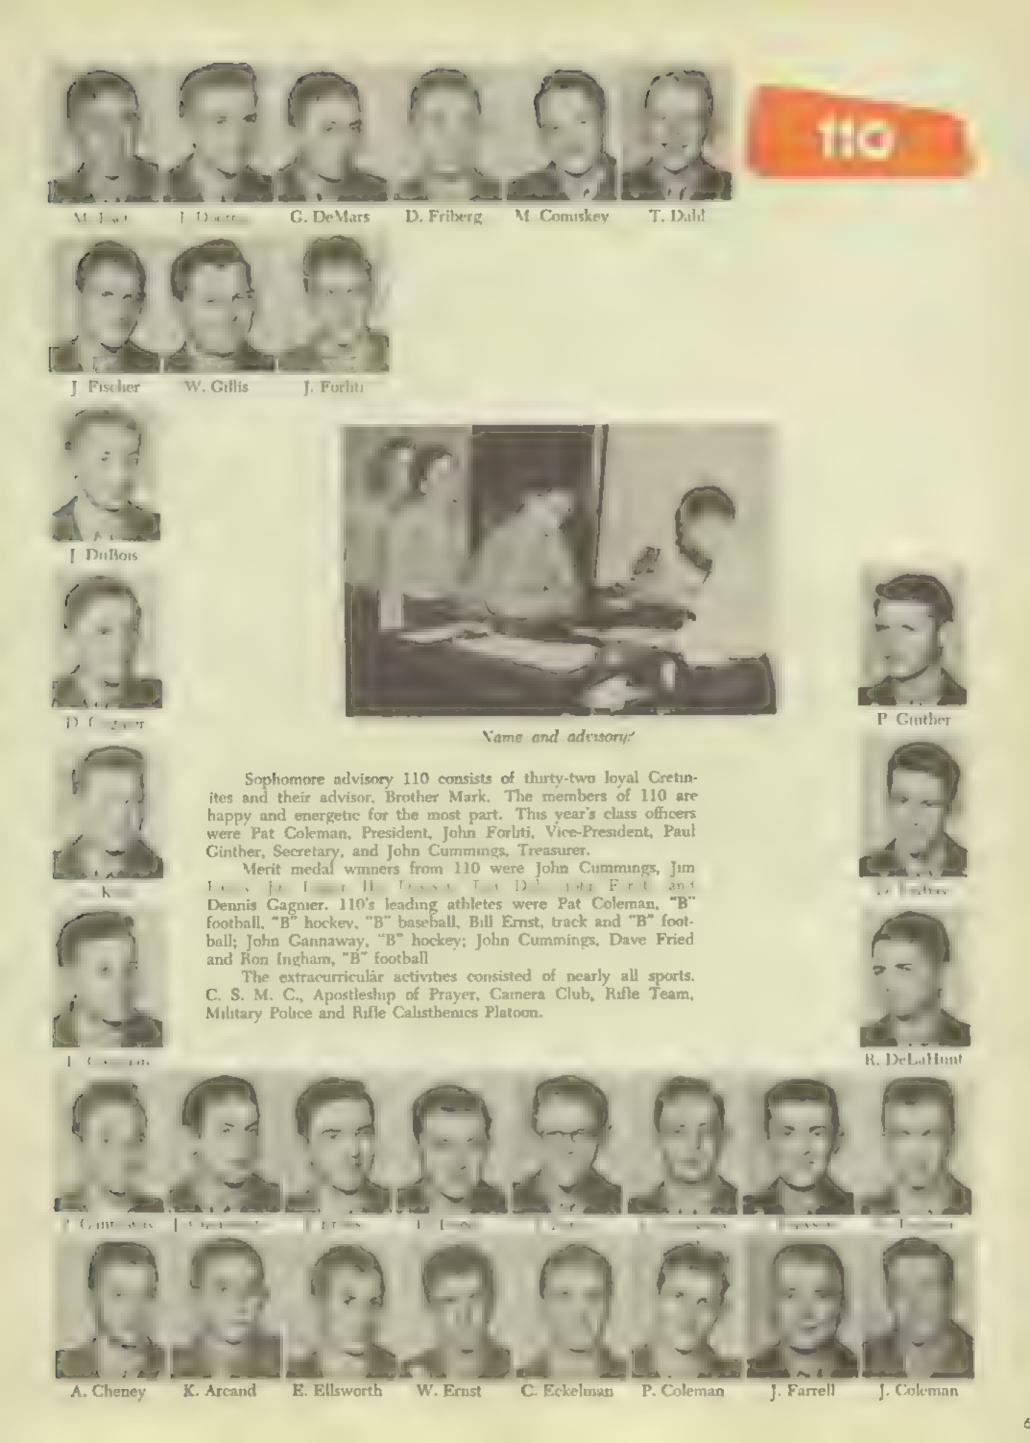

Under the strong guidance of a former Cretinite, Mr. Martin Walsh, advisory 111 has developed into one of the best advisories in the Sophomore department.

With such contributions in the field of sports as Dennis Hohsak, Larry Husten, Paul Kerwin, John Huntley and Jim

Grampre, 111 had its share of "Wee" men.

111 was not without its scholastic leaders either, with Paul Kerwin, Ivan Hudalla, Bob Higgins, Jim Grampre, Thomas Hoisveen, Jerry Jensen, Bob Hager and Bob Hamer all attaining high honor roll ratings. 111's class officers were Jim Grampre, president; Bob Higgins, vice-president; Ralph Gosselin, secretary; and Ivan Hudalla, treasurer.

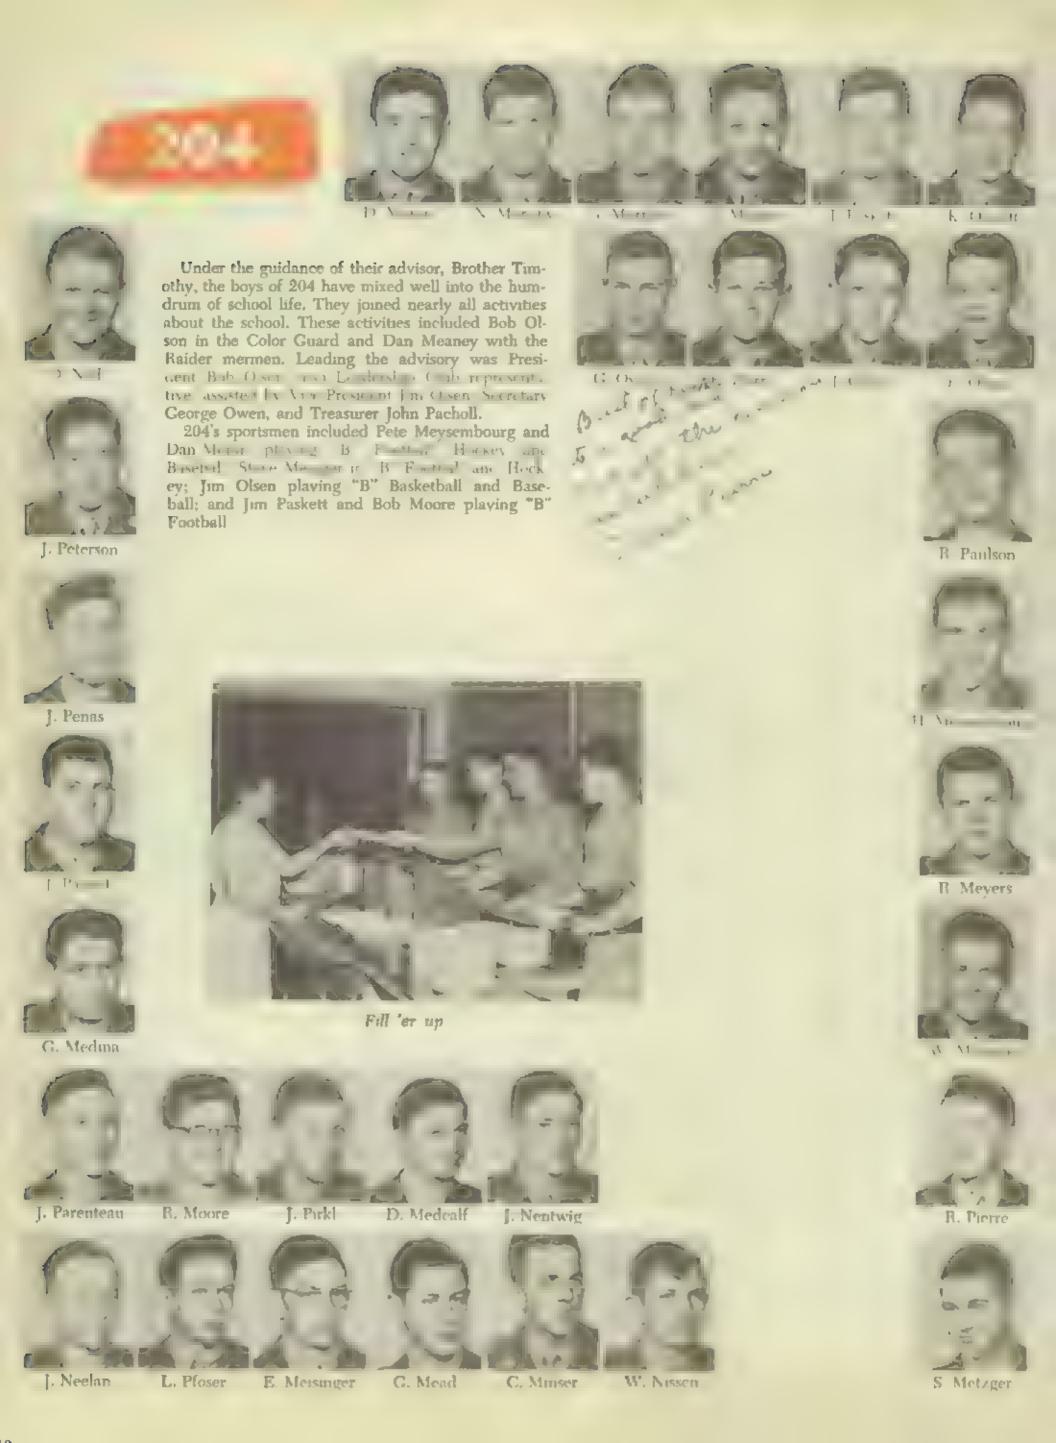

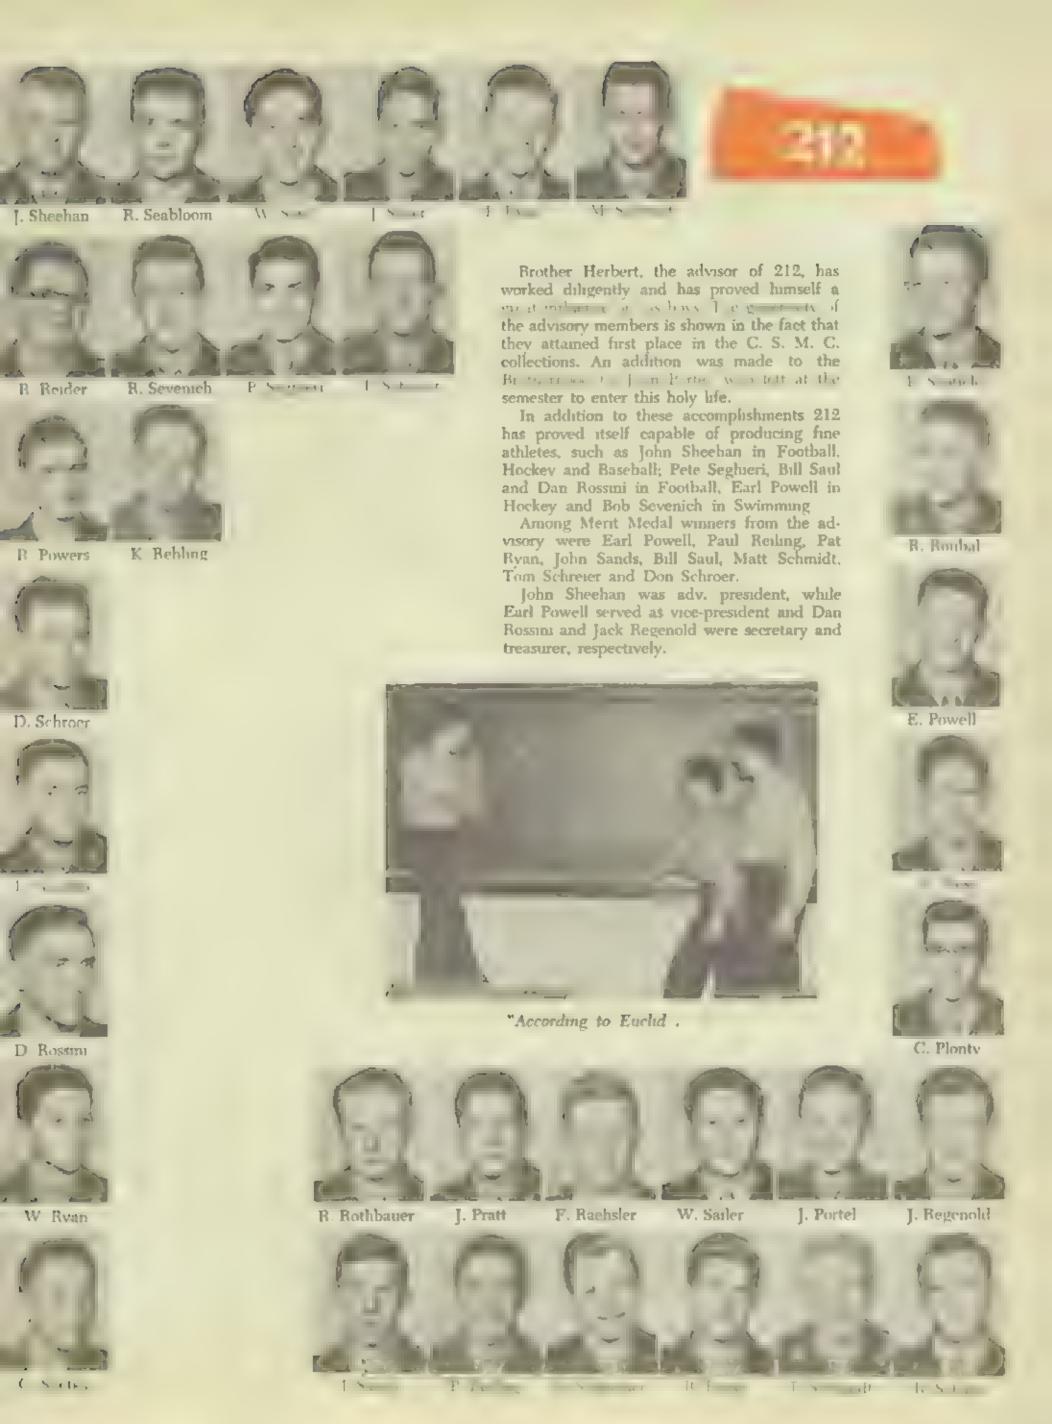

Advisory 116 seems to be best known for its sports stars Joe McDonough played "B" Squad basketball after being (squad Captain his freshman year. "A" letter winners were Chuck Kit ben in His key and John Kurder in swimming Among 116's honor students is Larry Knaff who was ranked fourth in the department as a freshman.

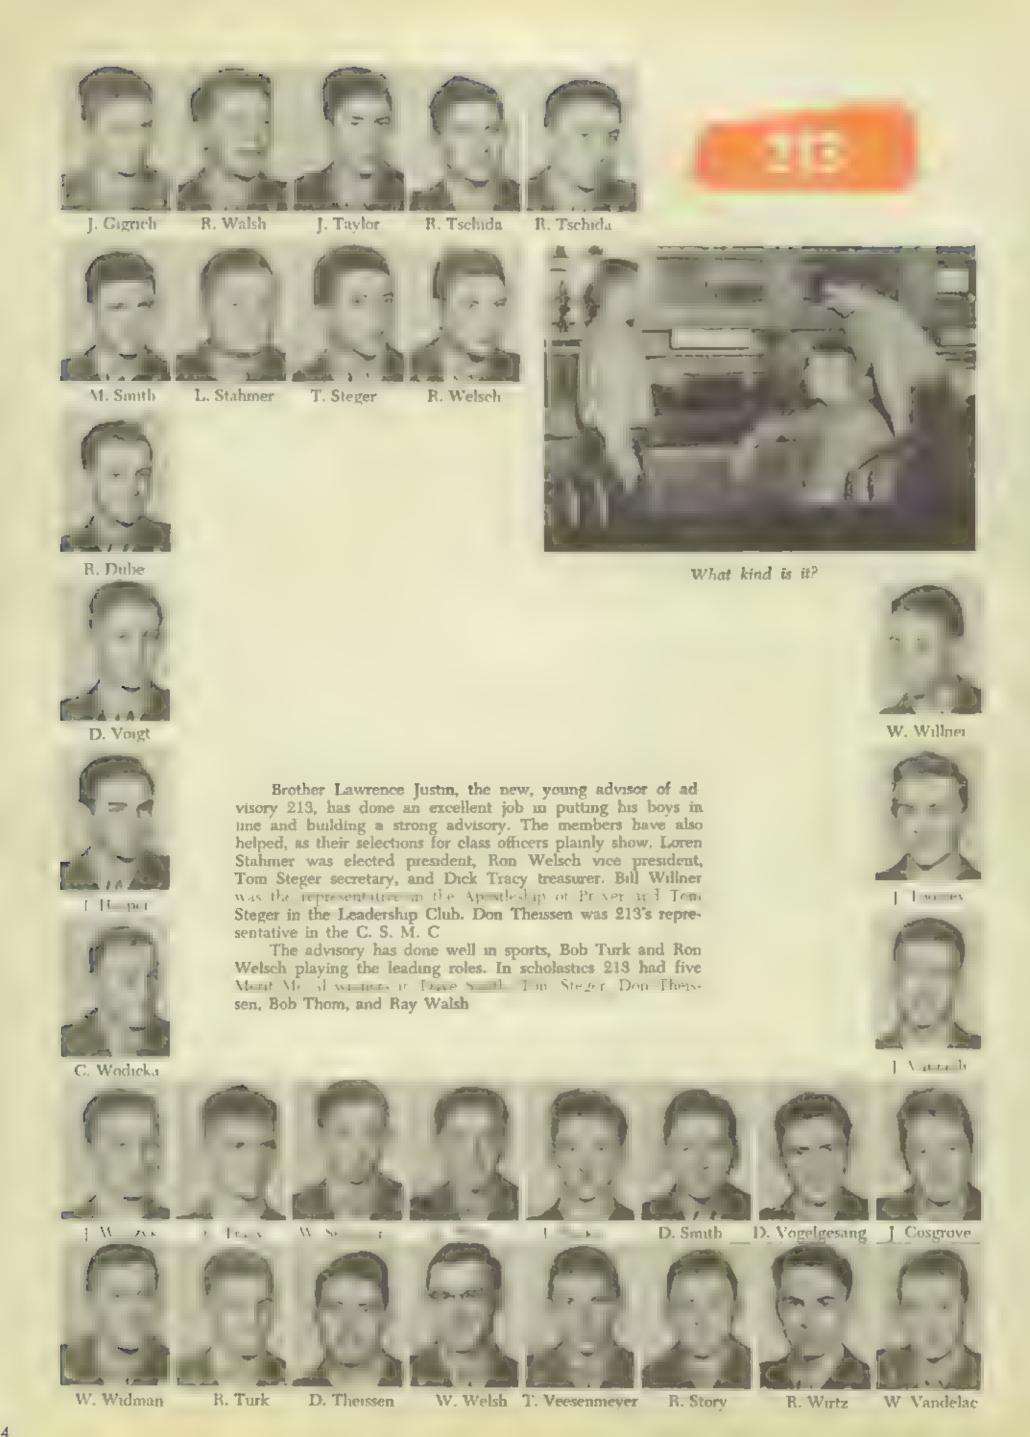

The class officers in 116 were: Joe McDonough, President; Joe McCarthy, Vice-President; Bill McLellan, Secretary; and Bob Kruse, Treasurer. Special mention should be made of Dennis McInerny who left for Silver Creek, New York to enter the preparatory seminary of the Columban Missionaries.

Homeward bound

Leaders like Mike Arend, Pres., Roger Coleman, Vicepres., Bob Busch, Sec. and Jack Altier, Treas., made it possible for 102 to have an early organization for more efficient cooperation of the students throughout the school year.

On the activity agenda 102 dominated the music world. It produced musicians like John Biscigha, Larry Baier, Bob Burke, Jack Cassady, Jim Casby and Dick Bobnick. On the other hand, Dick Cooney, Bill Casey and Jack Altier were active on the "B" and "C" squads.

On Mondays Bob Brunner stole the show by constantly winning the neatest cadet chord.

As Brother James Walter said of his charges, "They're the best boys in the world."

Under the leadership of Brother Thomas, 103 thrived in many academic and extracurricular activities. Its most important interest stemmed from a journalistic point of view. 103 had mine COMMENT staff members and capitalized on its originality by publishing its own newspaper, the INFORMER, under the editing of Donn Eiden.

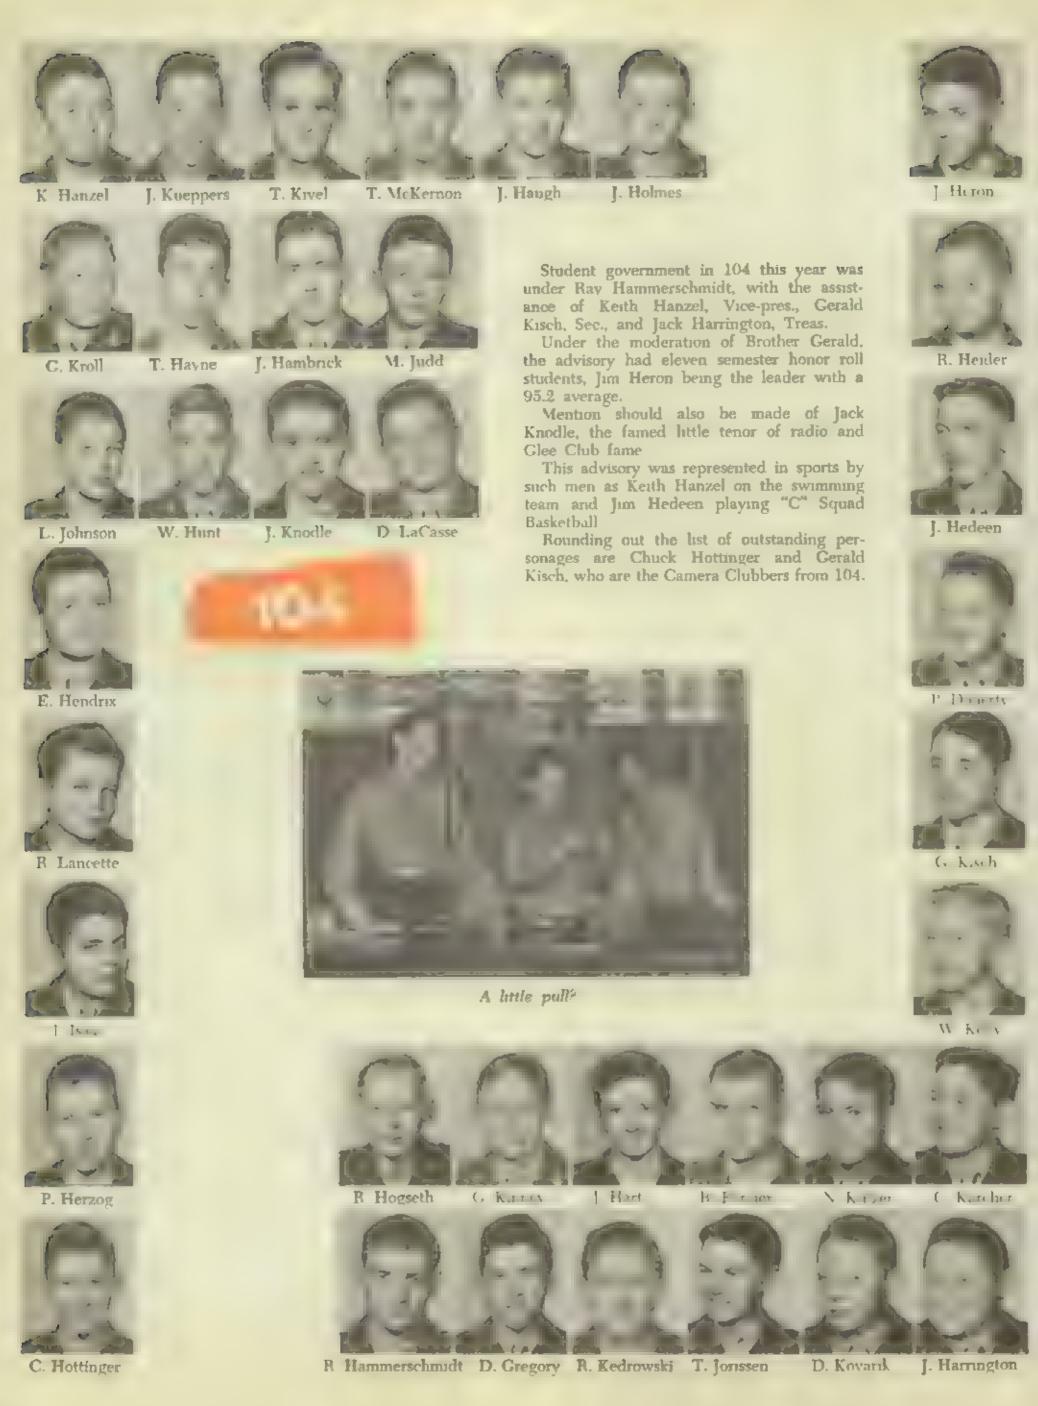

Led by John Goduto, advisory 103 had the most honor roll students in the freshman department. It also placed Bill have going fried on John D.Smt List H. - Dick Graff and Larry Geng on the "B" and "C" basketball teams, with Essling and Graff repeating on the "B" football team.

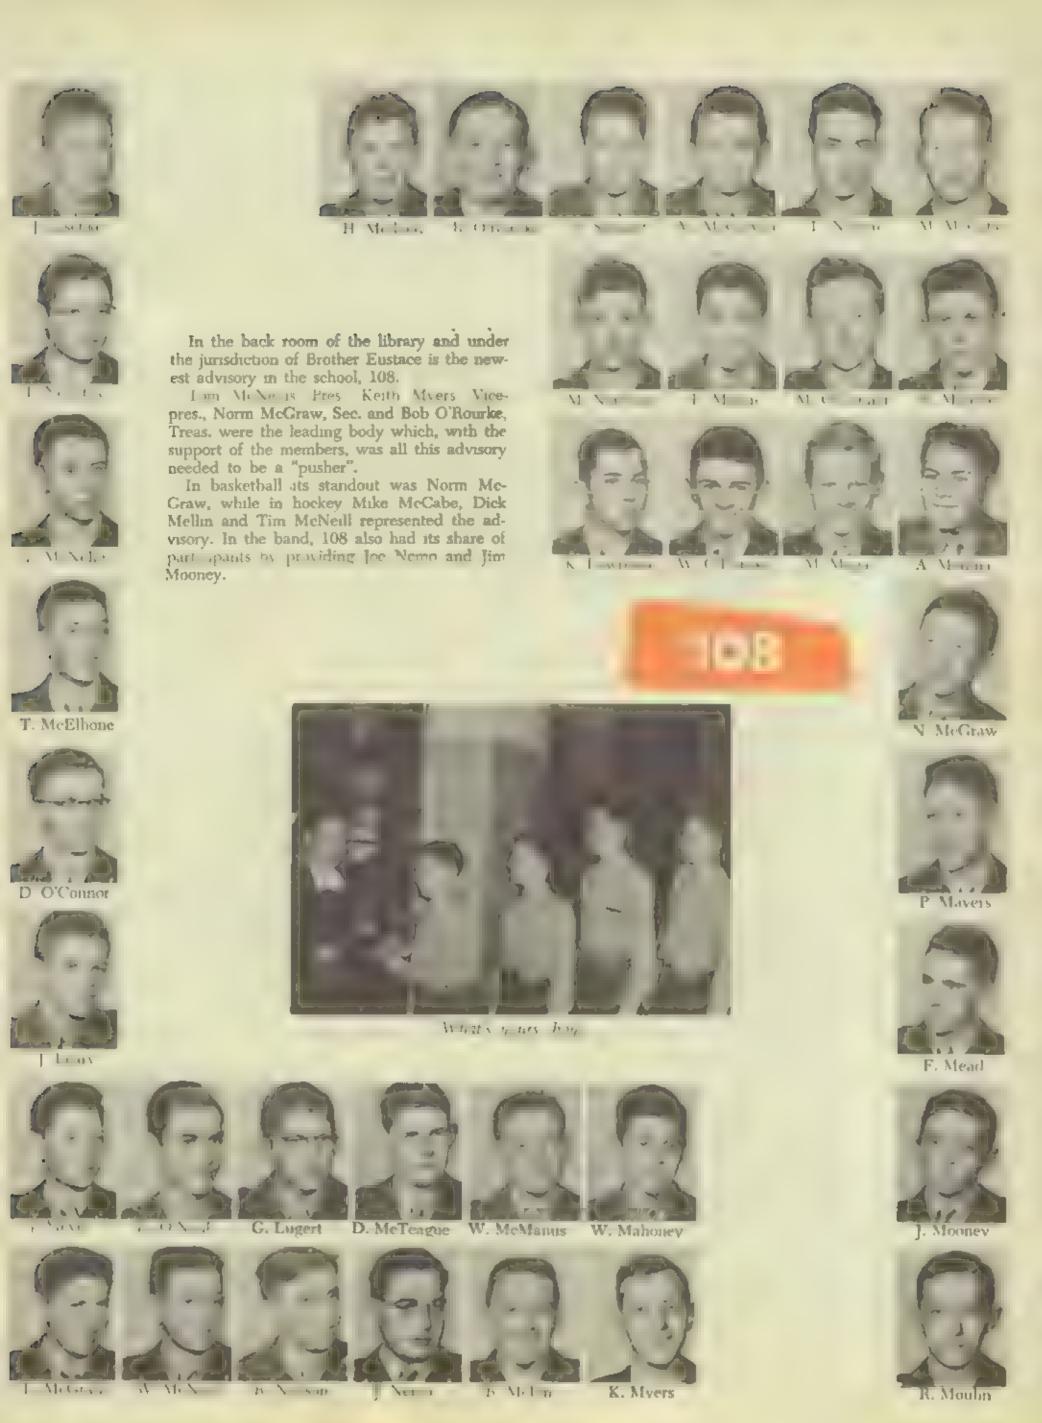

Together with President Pat Finley, Vice-president Bill Cutting, Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and Treasurer Jerry Friedmann, 103 of Secretary Bill Essling and 103 of Secretary Bill Es

RELIGIOUS

Who are the most godlike of men? The question might be a puzzling one, unless our language answered it for us the Godliest.

Anonymous

CATHOLIC

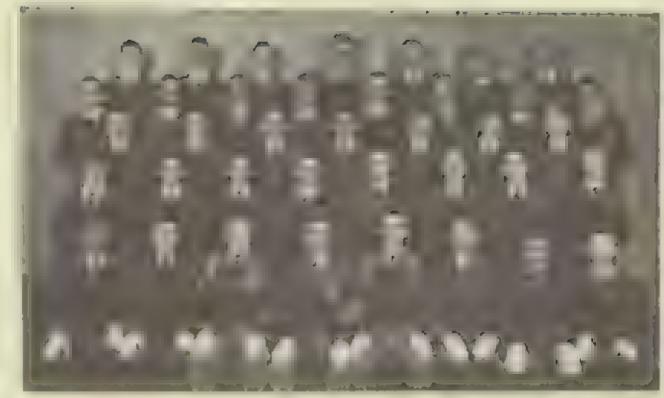

Christian Brothers, Bluefields, Nicaragua

The President collects

The only knowledge many fellows have of the Catholic Students Mission Crusade is that it is active on Tuesdays. Quite the contrary. the C. S. M. C. is a spirite though little publicized, organiz. tion. Thur chief interest, of course, is the missions, but in their efforts to aid the missions, the members have learned the value of self sacrifice and hard work. The C S. M. C. has taken over the job of checking clothes at all of Cretin's social events in order to be of service and to obtain support for the missions

Brother H. Timothy, who has been associated with the C. S. M. C. for the past two years has engendered in the members a love of the missions which they will carry with them for some time to come

BENILDUS CLUB

Cretin candidates to the brotherhood

A group of sincere seniors, under the direction of Brother Mark, have met regularly to discuss and solve the necessity and problems of good vocations. This group, the Benildus Club, endeavors to put before the student body the importance of considering their vocations now, rather than waiting un-

til it is too late.

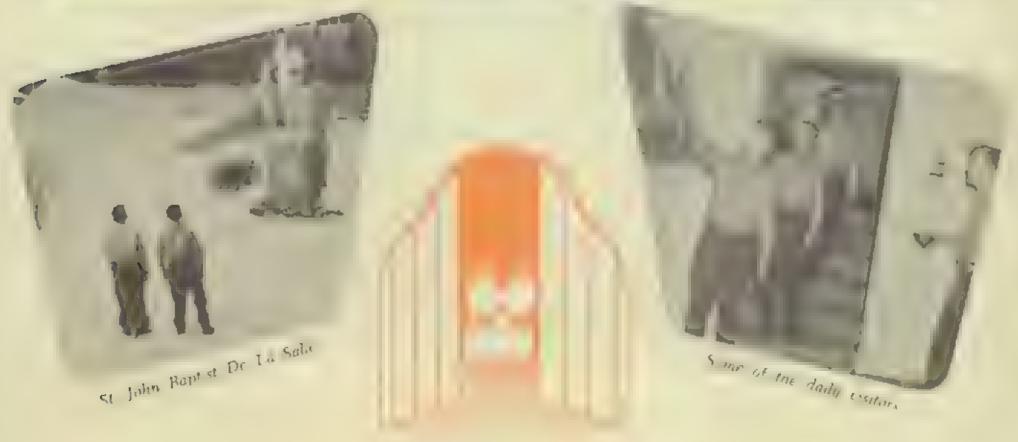

Its members feel that somewhere in God's great punchboard is a hole in which you and only you will fit, and that if you neglect your calling that place will remain empty for eternity. The influence of these boys will someday be seen in the final pattern of God's punchboard.

NATIONAL

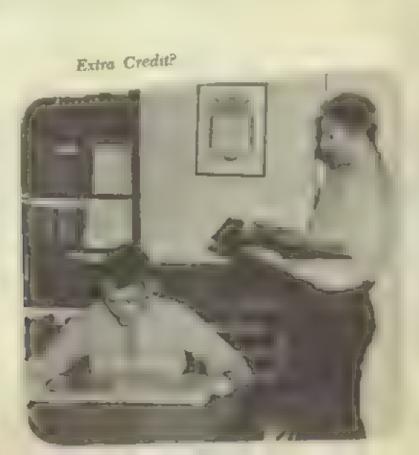

It was in 1937 that the senior class organized the National Honor Society chapter at Cretin. The group obtained its charter on April fourteenth of that year. Thus, every year about two or three months before graduation, membership applications are voted on, and membership is granted to those cadets of the senior class who have distinguished themselves in the four fields considered for admission—character, scholarship, leadership, and service. Participation in the society is limited to the top twenty-five of the graduating class. Recommendations are made by the senior advisers, these recommendations are then qualified by the Leadership Club, and by the faculty council, and then finally approved by the principal

The National Honor Society also grants a group of scholarships to its members. However, only one-fourth of the group selected for the society are eligible to take the test. Cretin is proud to have a membership and charter from this national organization for the encouragement of good scholars, good

leaders, and good entirens

DEMATE

In September of this year, the Cretin Debate Team was reorganized for its second year of competition. Although still a relatively new group, the team made a good showing among the schools participating last year, acquitting itself well in the various tournaments that it entered. This year the team has a seasoned core of veterans among the upperclassmen, and has recruited many promising freshmen and sophomores

The talent and ability of the team have been developed and put to good use by Brother Herbert, who is serving as the moderator for the first time this year. In this capacity, he has shown his full understanding of the principles of argumentation

and effective training of the team

This season's topic for debate was "Should Civilians Be Conscripted for Labor in Time of National Emergency?", a problem of great social importance. By debating modern social themes such as this, the individual student learns not only to speak publicly with clarity and poise, but also to evaluate intelligently modern life and its complexities

Fo most Cretmites, Don Lape, books and clarinet case tucked under his arm. is a familiar figure. This redheaded band member has distinguished himself as this year's valedictorian and also has attained the rank of Band Major. Testifying to his leadership, is the fact that he has held student council and advisory officer posts during his four years at Cretin, and also was named representative to Boys' State last year. "Red Dog" is also popular among his fellow band members, having been voted the Band president for 1952.

Besides these laurels, Don as a freshman received the Good Citizenship medal, and last year was awarded the Chicago Tribune commendation. His scholarship is shown by four ment medals, signifying that he has never missed the Honor Roll

since he enrolled at Cretin.

He is an active member of other organizations at Cretin, and is secretary of the Chemistry Club. Journalistic endeavors are not overlooked, either, as he has been a member of the Comment staff, and is presently the editor of the scholastic section of the '52 Cremnte.

A close second in the race for top scholastic honors in the class of 1952 is likeable Robert Hauwiller. All-around ability is the best term to use in describing Bob. Having been elected an advisory officer in his junior year proves his leadership ability. His qualities as a leader were very instrumental in his having been named as a Lieutenant Colonel. Ample proof of his scholastic ability lies in the fact that during his four years at Cretin he has never missed the honor roll, winning a merit medal each year.

Bob has not neglected extracurricular activities either, being a member of the Cretmite staff, Cretm Chorale, Chemistry Club, Benddus Club, and a

very active Drama Club member.

Other awards attained by this modest senior include: a Citizenship Award presented by the Daughters of the American Revolution, and last year, he received the American Legion Award for the outstanding Junior of the year.

It is certain that there will be a very fine Brother in the making when

Bob leaves for the novitiate at Glencoe this June.

CHEMISTRY CLUB

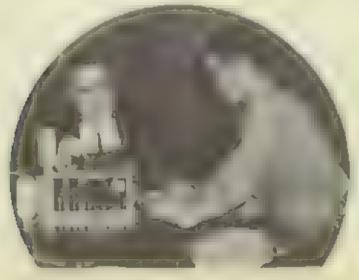

The Chemistry Club exists to promote the education of science-minded students, stressing individual progress, ingenuity, and originality in projects taken at the start of the school year. At each bi-weekly meeting members explain their particular line of research, and employees of some of the large companies are engaged to give lectures on topics of mutual interest

The moderator and guide of the club is Brother Mark, who has shown himself more than capable by his genuine interest, knowledge, and willing ness to help the members in their work. The group has demonstrated its usefulness well by supplementing the work done in the regular laboratory periods, and giving an insight into some of the more complicated aspects of chemistry.

An annual project is the Westinghouse Talent Search, in which the members of the club are active participants. The prime purpose of this search is to award scholarships to deserving young scientists. Although the competition is heavy, the club members have used their energies diligently in trying for the contest.

This year's officers are John Cooney, president, Paul Grass, vice-president, Donald Lape, secretary, and Vernon Mirsch, treasurer.

PHYSIC CLUB

The Physics Club was first organized at Cretin in the fall of 1951 by Brother Martin, who also acted as its first moderator. In the election of officers, James Farrell was elected president, Ernie Dawson, vice-president, William Gerstner, secretary, and John Mehn, Thomas Kirk, and Thomas Ross were named to the publicity staff. John Mehn also heads the Constitution Committee, which decides all matters concerning the government of the club

When Brother Martin left at the semester, his duties as instructor of Physics and Physics Club moderator were taken over by Brother Virgil. He presides at the monthly meetings, held on the second Monday or Tuesday of the month, depending on the wishes of the program committee. Usually the meetings are held at 7:30 P. M. at Cretin. The main part of the program is based on talks on phases of Physics which are of common interest, demonstrations of the more important machines that the physicist employs, and a series of movies on technical explanation.

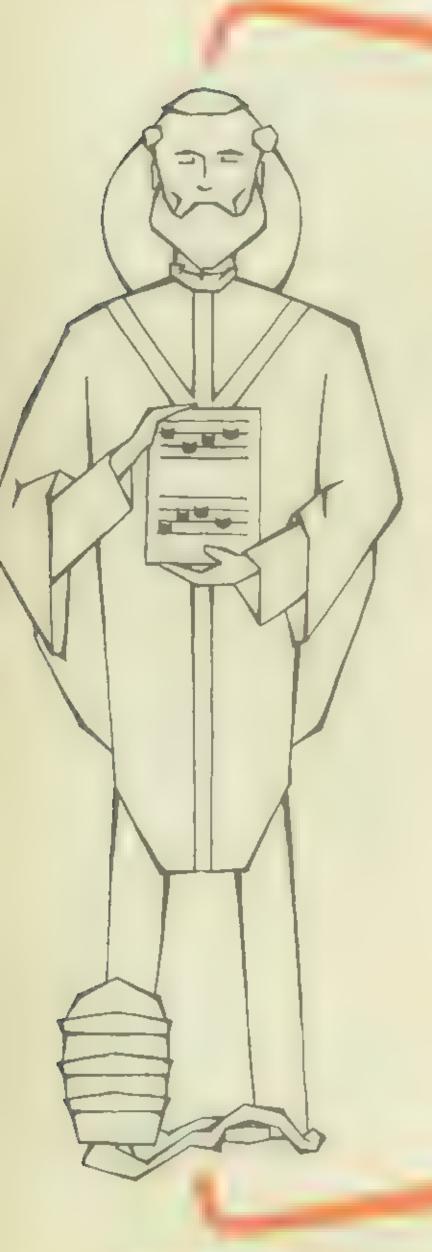

The overall purpose of this club is to give the ambitious student a chance to delve deeper into the realm of science than the material given in regular classes. The membership is limited to those maintaining an eighty

percent average in their Physics grades

James Farrell, pres., Bro. Virgil, moderator

CULTURAL

Arts and sciences are not cast in a mould, but are formed and perfected by degrees, by often handling and polishing.

Michel de Montaigne

CONCERT BALNO

Mosic is the main extracurricular interest of about one hundred Cretimites, who, because of this interest, have joined the Cretim Concert Band. For a particular few, the Band presents an opportunity to prepare for a future in the field of music, while to others it is a means of improvement and enjoyment

The Band has maintained an enviable statewide reputation among high school bands under the leadership of Mr. Eugene Trowbridge. "Gene", an alumnus of Cretin, has directed the Band for four successful years, and is as good a friend as a teacher to the bands men. His exceptional abilities as a director and his sparkling wit make him popular with audiences as well as with his musicians

The main efforts of the bandsmen are centered about the Christ mas and Spring Concerts. The program for the Spring Concert is however, "heavier" than that of the Christmas Concert. Two of the Spring numbers are played at the District and State Contests, at which the band repeatedly shows its superiority in musical interpretation.

Throughout the year, numerous concerts are given at parochial and public high schools. These appearances build up the reputation of the school and hand, give confidence to the members, and aid in perfecting the concert program

There has always been a deep sense of pride among the body men concerning their organization; an organization which will occupy a major place in their memories of Cretin

A good Concert Band must have a reserve of musicians to fill spots left open by graduation. The Cretin Freshman Band supplies such a reserve. Each day, during seventh period, this reserve gets stronger, till some of the Frosh join the senior ranks. Two of the more outstanding players are Garv Wanzong and Pete Seifert, who play the clarinet and trombone, respectively.

At about two o'clock every Find o' afternoon, in the fall and spring, another Band organization can be heard blowing, clashing, and thumping. The music at this hour of the day is supplied, then, by the Marching Band. Besides providing the marching cadence at parades, this group handles a more essential task, namely, performing at the Federal Inspection. For the school to get an Honor Rating, the Marching Band must be good

The membership list is only slightly smaller thair that of the Concert Band. Thus, the Marching Band is a large group, but is kept in step by the competent handling of

Don Lape.

he departure of Brother L. Vint and the return of Brother mard brought a "new look" to Cretin Choristers. Now called Cretin Melodet Chorale, the up differs only slightly from the odets of a few years back. main variance is in size Melodets had eight mems while the present group has und twenty-live active singers The Chorale has made se . . ! ances at local high schools ong these were concerts at Vision Convent, Our Lady ... and St. Mary's Nurses' me. An enjoyable trip was made

I ... - - - - - -

to Villa Marie, in southern Minnesota, where the boys were very well received

Appearing on the programs were popular numbers and perennial lavorites, such as "Dream" and "In the Still of the Night." The fact that the songs were chosen by the members themselves and the large number of concerts given fulfill the two objectives of the group, which are to gain experience by public appearances and to have fun by singing. The group has very splendidly upheld the reputation of Cretin's singers in all its performances

If you stop to consider the number of hours 1 m by the various groups around school, the Drai atte Club could easily be called the hardest wor ing group at Cretin Those connected with dram ties, however, know that every minute was wor it. They learned the valuable lessons of teamwo and humility. No one person is capable of putti on a show by himself and even the most mincharacters add much to the finished product. The members of the Dramatic Club may well be proof their achievements, in view of the sacrifices in

On Saturday of the Thanksgiving weekend, tl Club played host to the annual One-Act Play Fest val. Nine schools from the Twin Cities attended, wit Brother James Luke, from St. Mary's, as the criti-Cretin's contribution was a modern morality pla entitled "Lucifer at Large". The play shows ho the devil uses sensuality and power to tempt ma and how good triumplis over evil. The event was indeed, successful; it gave the participants valuable experience in acting and showed them where an how approvement could be made

During Lent, a second play was produced by the Club. "Brother Orchid", a three-act play by L-Brady, tells how a gangster, escaping from h would be murderers, takes refuge in a monaste The success of this production added much to the reputation of the Cretin Dramatists

Now and then throughout the school year, the regular schedule is altered in order to present various assemblies to the student body. These presentations are welcomed, partially because they represent an hour less of school, but mostly because they prove to be entertaining and instructive to those who witness them

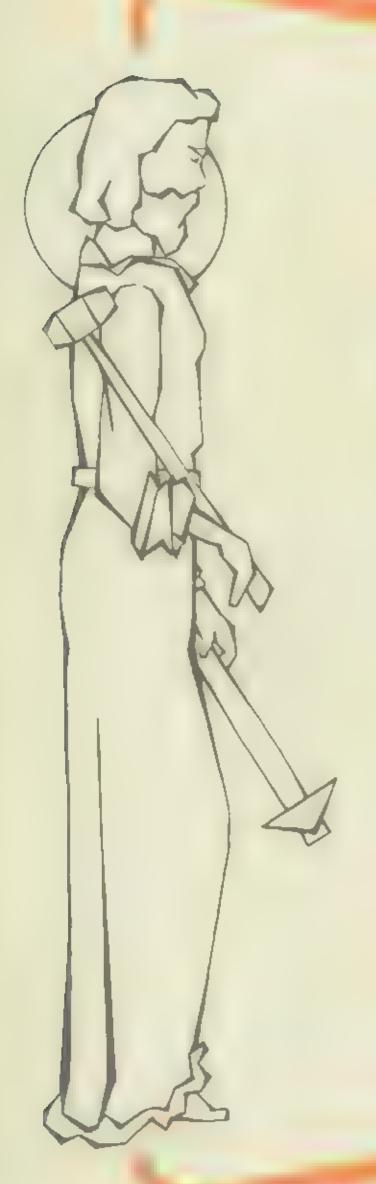

This year was no exception, but, as far as the entertainment presented is concerned, it was exceptional. The Petrie Woodwinds brought to Cretin a talented vocalist and three equally talented musicians. The trampoline demonstration was made even more enjoyable by active student participation Mr. Morgan's ability in the manly art of judo was a lived and admired by all

St. Mary's College sent a delegation which of lered the best in college entertainment. The dances and rituals of the Far East were aptly portraved by the Indonesians. Pat Seneff's marimba and xylophone numbers were augmented by vivid explanations of the instruments' origins and distinctions. Probably the highlight of the year's assemblies was that give by Mr. Robertson, whose knowledge of the drums and ability to play them was equalled only by his warm personality, subtle humor, and ability to keep in audience well in hand

Stressing precision in the execution of the manual of arms and innovation in close order drill, the 1952 Crack Drill platoon has ably followed in the foot-

steps of its predecessors

M. Sgt. Warren W. Kuchl was the moderator of the group, and Colonel J-s N. Larsen was the platoon commander. Captain James W. Rabuse and Major John G. Donahue acted in the posts of assistant commanders. Performances were given at several of the Minneapolis Laker basketball games. at various Cretin social functions, at several Twin Cities' schools, at Winter Carnival affairs, and at many other guest spots. Twenty-two seniors and eight juniors comprise the thirty man squad. A berth on the Crack Drill platoon is the dream of every military-minded Cretin cadet. Usually a cadet gradually works himself up by practice as a man in the ranks and as a member of some minor organization, such as the Freshman Physical Platoon or the Rifle Calisthenics Platoon. Then in his junior or semor year, if he shows the capabilities, he be comes a Crack Drill member

Except for infrequent scoring announcements in the daily bulletin, this organization is nearly unheard of. The members have no cause, however, to be any less proud of themselves than members of the more popularized activities. Perhaps they even hold a slight edge in their justified self-satisfaction, for their amazing performances are done without cheering crowds and applicating face.

Cretin's 1952 edition of the rifle team has made the usual noteworthy showing. Coached by M./Sgt. Edward Fortier and captained by Jerome F. Neurauter, they consistently fired on a par with most rifle organizations throughout the nation. In the William Randolph Hearst National R. O. T. C. Rifle Match they finished twelfth, with a score of 896. Our second team placed sixteenth with a mark of 889 "Newt" finished second in the entire nation in the high school division with a mark of 194. This score would have earned him first or second in any one of the other divisions, also. In the Fifth Army Intercollegiate Rifle Matches, a tenth place first, with a score of 7154, was their output

MILITARY POLICE

Throughout the years, the Military Police have maintained a splendid reputation in the cadet corps at Cretin. In accordance with the advice of their moderator and under the able command of their cadet leaders, the M. P.'s have proven themselves to be a credit to the school. The M. P. detachment is composed of memhers of the Sophomore, Junior, and Senior classes.

Its duties include that of a special firing squad for funeral ceremonies and of patrolling the grounds during parades and special formations. The M. P.'s also are in charge of a flag detail and m the last few years have developed a marching unit which has shown its excellence on many occasions

In order to gain membership in this fine organization, one must have a sufficient knowledge of military proceedings, be neat and courteous, and have the ability to maintain order where it is

The M. P.'s can be justly proud of their organization, for its faithful service and unfailing dependability has earned the gratstude of the faculty and students of Cretin-

The day's end

When school started in September, work on the yearbook began to speed up. Under the guiding hands of Paul Grass and Tom Kolar, sections began to take shape. Jim Sankovitz was busy daily taking pictures of the various school functions. Norb Anderson . It is a smen together and in a short time the sale of Cretinites was under was busy did a thorough job, checking on every student, and after a few weeks ales were closed. The advice and experience of Brother Gerard, year-book moderator, was of infinite value throughout the months the book was being assembled

Our congratulations and heartfelt thanks go to all who worked on the book

ROW- E Morrill, J. Bedor, J. Hanzel

The Comment is now in its 30th year in the eld of high school journalistic endeavor Driginating as a monthly news magazine in it was converted into a newspaper in 127 Its first moderator was Brother John erchmans, who holds such a prominent place the history of the present Cretin

Membership in the National Scholastic Press ssociation, Columbia Press Association, Quill nd Scroll, Catholic School Press Association. nd the Minnesota High School Press Associaon offers the benefits which come from the instructive criticisms and ratings offered by

rese organizations.

During the past year an endeavor has been ade to give freshman candidates regular ekly instructions in journalism both for the urpose of knowledge and the stimulation of atorest.

James Sankovitz President

Anyone wishing to learn the interesting and practical art of photography has a wonderful opportunity in the Cretin Camera Club. Every member has his own camera and the club's own equipment is exceptional for a high school organization of this type. Its members are placed under the experienced guidance of Brother I. Anthony through whose efforts the organization has reached its present position.

CAMER

Club officers are Jun Sankovitz, President, Tom Ross, Vice-President, Tom Brennan, Secretary, and Bill Ryan, Treasurer. All these boys have been in the club since their freshman year. As a matter of fact, the club's membership is not open to anyone who has not been a member since at least his sophomore year.

The club does a fine job in taking pictures for the CRETINITE and the COMMENT. The members also gain financially by taking photographs of couples at the J. S. and Homecoming dances. The club holds monthly contests for its members. By these contests and by taking pictures for the school publications the boys gain achievement points. Each year the "shutterbug" amassing the greatest number of points is presented with an achievement translation.

PHYSICAL

Not in rewards, but in the strength to strive. The blessing lies.

John T. Trowbridge

FORTDALL

Cretin's dauntless Raiders moved to their first undisputed C. C. C. crown since 1938, and assumed the position as the only unbeaten and united Catholic prep eleven in the state. They garnered seven victories in seven outings.

Cretin gained its first conference victory in dropping the Junior Johnmes of St. John's 27-7, at Collegeville. The Raider's aerial attack, engineered

by Jim Hare, proved to be the deciding factor in the triumph

Our rivals from the Island gave little opposition as the Raiders rolled on, this time by a 41-12 margin. De La Salle ran into an inspired Art Shields, who ran for three touchdowns and kicked four extra points to virtually defeat the Islanders singlehanded

Sweet revenge was gamed on the Cadets of St. Thomas, for the Raiders interally reversed last season's decision in dropping the Toms, 19-7. George · menan and Art Shields spearheaded the attack. Coleman was said to be the in the backfield because of his brilliant defensive play.

DASKETBALL

Although it brought us no championship of any kind, the '51-'52 edition of the Cretin basketball team won 13 out of 16 games and gave its fans many a thrilling moment to remember. The Raiders employed good speed, sufficient height, and fine shooting finesse in going undefeated in non-league play and winning 5 of 8 Central Catholic Conference games.

After belting six non-conference foes, Coach "Wee" Walsh's charges made easy work of St. Thomas Academy by whipping the Cadets in their first league test. Then, after being nipped by De La Salle and St. Cloud Cathedral (the latter in overtime), the Raiders rolled past St. John's Preps twice and St. Thomas again. After these victories came the most thrilling win of the year when, at Cretin, the Raiders tipped St. Cloud 49-48. The season ended when they lost an outside chance for a State Tourney berth by losing to De La Salle, thereby retaining third place in the Conference standings.

Our team was constantly hampered by inquires throughout the year and at least two of its three defeats could be blamed partly on the losses of John Curran and Art Shields. These two, along with Ed Stromme, Jim McNeely and Jake Connor composed the starting five. In contrast to the last few years, the team was backed by several very capable reserves led by Mike Scott, Ed Soshnik, Bob McElroy and George Coleman

Our school can well be proud of this year's group of basketeers, and must remember that several tough breaks were big factors in depriving Cretin of at least a title share in one of the finest, best balanced leagues which the Central Catholic Conference has enjoyed in y ans

TRACK

Cretin's present track squad, coached by M/Sgt. Robert E Anderson and guided by Co-Captains Ray Faricy and Frank Pilney, will be out to gain a prosperous season record

Such cindermen as Jerry Doyle, Jim McNellis, John Settergren, Rickey Spock, Dan Rossini, Ray Trossen, and Larry Trost will aid the squad in its efforts.

Highlights of the track slate will include the State Invitational Meet, the State Tourney, and the St. Thomas Relays

Workouts were held in the U. of M. Indoor Sports Building before our track was suitable for use. This enabled Sgt. Anderson to get a firsthand look at his material. He, along with Brother Herbert, the moderator, has worked the boys into a well balanced team, which has many possibilities.

Co-captain Pilney, Coach Anderson, Co-captain Faricy

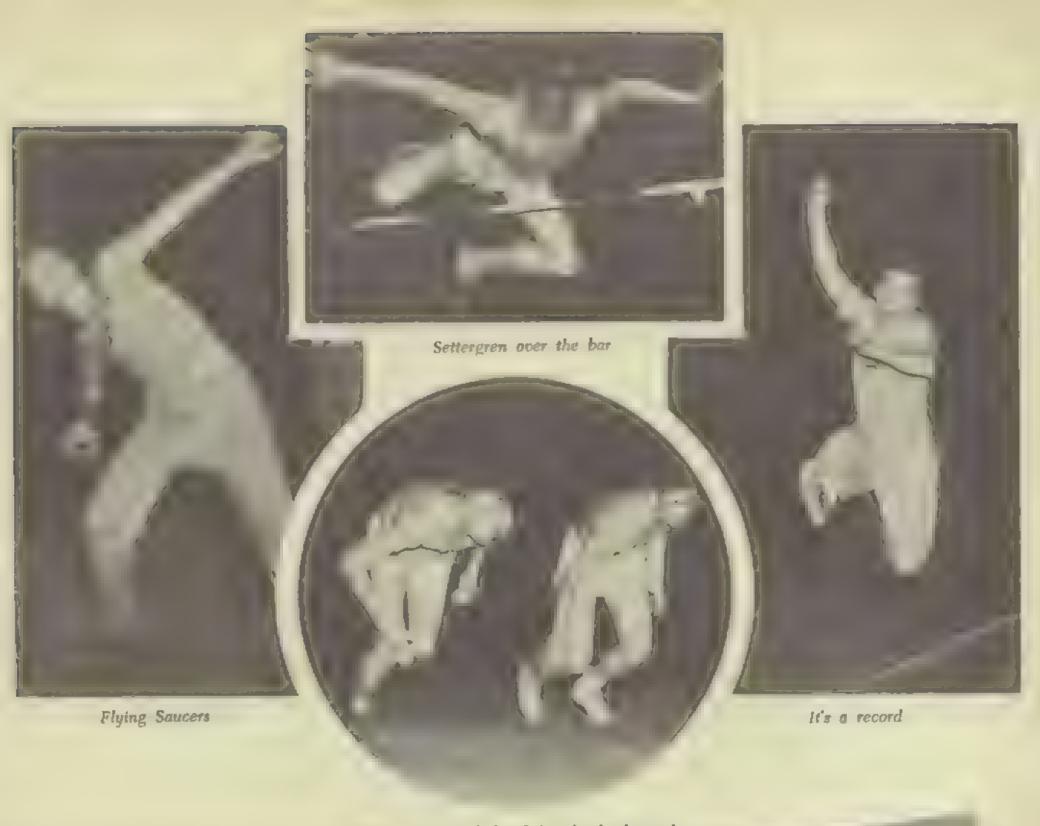

Win, Place, and who?

Cach'

"You take it, I'm pooped"

SWIMMING

Dan Schneeman

A McManus powered swimming team splashed its way to a successful season this year and coach Dan Schneeman was highly pleased with everyone. Co-Captain Jim McManus was by far the standout as he set five school records, a pool record at Shattuck, and a state record in the Winter Carnival Meet. Co-Captain Gene Pierre John Kugler, Chuck McNerny and Jim Ryan were also consistent point getters in this year's campaign

Cretin's schedule was one of the roughest it has ever attempted and in this light the team's showing was praiseworthy. St. Thomas boasted one of the best teams in the state and Cretin has never beaten Shattuck. On the other hand, the tanksters twice defeated Central, St Paul Public School Champs and also De La Salle, who had a strong team. In the Winter Carnival Invitational Meet, Cretin placed third, one point behind Biake. Jim McManus, Gene Pierre, and John Kugler all received two medals for their performances, while Jim Byan walked off with one for his fine diving exhibition. Coach Dan Schneeman did a fine job and looks forward to a highly successful season next year

CEACON DECAME

SOCIAL

But the Lord God said, It is not well that man should be without companionship. Genesis II, 18

"It's not my team"

At 7:30 on October 27, the autumnal sky was illuminated by a blaze originating on the Cretin athletic field, as the Homecoming festivities got under way. The bonfire, first one at Cretin in over a decade, highlighted an evening of entertainment. Erwin Alfonsus, acting as Master of Cereaute gained the wholehearted participation of the students. The football team was introduced amidst expectant cheers, but all was silent when "Wee" Walsh began to speak All in all the evening was a huge success and served to infuse even more spirit into the already confident Cretin fans.

Sunday afternoon found Central studium in an uproar as the parade of highly decorated cars wheeled its way around the track with auto horns blanng. And well they might blow their horns, for the inspired play of the Raiders in the first half left little doubt in anyone's mind that Cretin would be victorious. As the scoring ended, Cretin emerged with a 40 to 0 triumph. The jubilant fans left the stands well pleased by the outcome and all went home to prepare for the big dance that evening.

That's the hay Ar

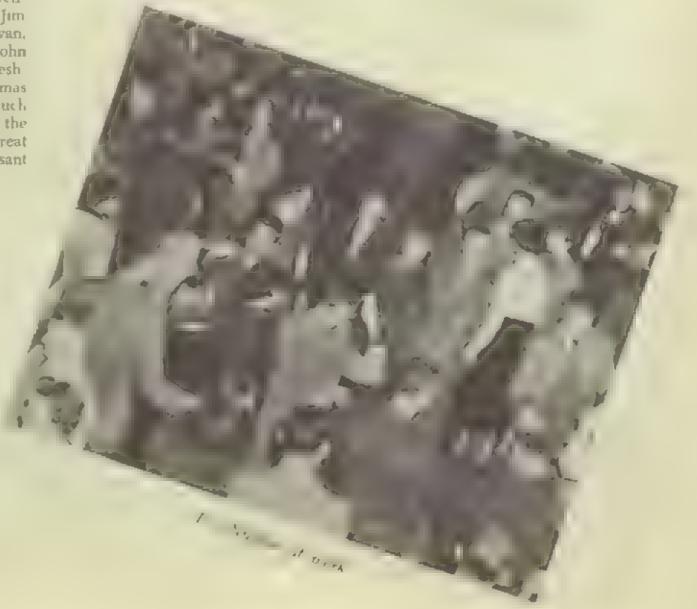

The autumnal atmosphere was as crisp as the leaves beneath the feet of the 354 couples who made their way toward Cretin High on the night of October 28. They entered into an auditorium which the decorating committee, headed by George Schneeman and Joe Rowe had transformed into a veritable palace of crepe paper bathed in soft blue lights. Hearts were light and feet were lighter as the students and dumnit danced their dates to the melodious strains of Dick Kast and his orchestra. One good reason for the general gaiety which graced the countenances of those present was the masterful victory the football team had achieved during their afternoon encounter with St Cloud. Two of the players who made this victory possible, Co-captains Bob Reis and Jack McCarthy, announced that their successors

would be Jim McNeely and Don Hoffman All those who attended owe their evening's enjoyment to Jim Hinchey and Jim Larsen, ticket committee; Jack McCowan, who arranged for the music; and John Cooney, who ably handled the refreshments. Brother William, Brother Thomas and Brother Leonard all contributed much time and advice and their efforts, in the absence of Brother Timothy, helped a great deal toward making the evening a pleasant the

Cretin's annual Officers' Ball was held on February at the Arizona Room of the Prom Ballroom. Some ninety officers and their guests were in attendance. Honored guests of the evening included Brother Matthew, Major Allan, Major Loch, and Col. Bearss from St. Thomas Military Academy

A dinner opened the evening's festivities, followed by a brief intermission. Then Dick Kast and his 12-piece orctra played to the Colors and the Grand March proceeded through the salire arch

Then with Cadet Colonel Jim Larsen showing the way the officers and their guests spent the remainder of the evening dancing to the strains of the band

Every phase of the affair proved to be a huge success Tribute must be given to Major Loch, moderator of the Officers' Club, to Jim Rabuse, president of the Officers' Club and everyone else responsible

Cheeseknwes on Parade

FATHERY AND SOME BANQUET

John Kundla

The clatter of knives and forks, the sound of clima and glassware served as fit accompaniment for the conversation between father and son as they patiently awaited the arrival of their evening meal. As the food was served the looks of satisfaction could be seen on every countenance. Everyone ate his fill and then settled back for a moment of relaxation

Following the repast, the men and hoys settled back to be entertained by John Kundla and George Mikan, coach and star of the Minneapolis Lakers respectively Mr. Kundla expressed his astomishment and pleasure at seeing 500 fathers with their sons. He stressed, in particular, the fact that it was an inspiring sight to see such a close bond existent. George Mikan seemed as much at home behind a microphone as he does behind his big number "99". He told several anecdotes concerning his career as a basketball player. For those attending, 'the evening was one of complete enjoyment and everyone went home with a feeling of satisfaction

"Hurry up, we're started"

BASKETBALL DANCES

Something new was inaugurated at Cretin this year in the form of dances following the basketball games. The Senior Carter to Survey Thomas game. State the Survey was followed by the Charlest and De La Salle was invited to join us in the "Hop De Hop."

The dances provided fun for

The dances provided fun for everyone besides helping to finance the CRETINI'I'

The music for the "Belle Hop" was on record, but "Cloud Hop" "Hop De Hop" music was to a self-by Rod O'Donell and the McManmon, respectively whose musicinakers provided enjoyable dance numbers throughout the evening.

Orchids go to Gene Pierre and "Nuhs" Anderson, whose management of the dances was appreciated by all and also to Brother Timothy, Senior Class Moderator, as well as the rest of the crew who helped make the "Hops" successful

Through the inherent yearning of man to express himself, the existence of the arts has been brought into this world. This same desire has been developed in all types of environments and classes of people. At Cretin, man's self expression has found itself in the annals of this school in the forms of drama, music, and painting. To picture the arts in some sense of order we will consider the first one developed.

A length is proposed to the recommendation of the carle is before the carle is before the carle is a smooth state of the test of the section of the section

List exist that, exists a sometime of a transfer and the community it serves."

As the American was becoming recognized in the world of music, so too in 1918 the Cretinites snowed their first engravors in the instrumental held by organizing the Band through the guidance of Brother James Walter. This little group proved itself provide by the development of a string increstra concert band, and marching band to provide entertainment as well as cadence, for the recently indoctrinated military. After fifteen years in existence, the richestra folded as result of few students taking private lesons. That same year orought the first Spring Concert which has now accome a tradition along with the equality well done but less feted Christinus Concert. Through the last four decades this organization has become one of the great colosses ses of culture under the drive and spirit of the directors and the thriving initiative of the Cretin "band boy".

Besides working with the dramatic department, the co-laborers in the field of music, the Cretin Choristers, in their own right, have brought recognition to the classics as well as popular ventures in much the same manner as the band. For the most part this extracurricular came to the peak of its popularity through the recent productions of the last three years, "The Red Mill" and "The Student Prince". Since 1918 the Choristers have been taking the words of the poet and lifting their voices, making his lyrics live again in song. They have had poor and great directors that and metalic voices but as in all the cultural strivings, the spirit of the cultural man, one of the rare finds in anyplace, especially the high school, has still been found, along with the fact there exists in this world an unsuspited Beauty to be sought for and acknowledged in the arts as worthy of its quest. Culture—the recognition of something conceivable yet unimaginable and the venture to bring this something to others.

When ye barber shoppe was the nearest Indian and school was an unknown pestilence to the urchars of St. Paul, a pudgy prelate took over duties of first bishop of the growing territory and with his spectacles pulled to the tip of his nose peered into the future. Joseph Cretin saw the need for education not just in Christian fundamentals, but in all phases, and with a clear perspective he served the inner man spiritually by starting many

churches and missions. Then he started, in the basement of his squat yellow brick Cathedral, a school. This was Cretin in 1851.

It is a second to be a second the basement discontent from faculty changes and the unsettled times of war permented the little classrooms, often giving temptation to those who were near the low windows to seek for more pleasant surroundings. The animosity of faculty toward pupil gave no

Take any of the other points in this section and reject them from man's life any of these and man will fit in the whirling mass of peoples that function in this moment of eternity; but depart from the social plane and all that society finds in its essence and you will perceive his nature has lost an element so fundamental to human and Christian living that Rousseau will be refuted by a mere example of such an escapist.

Truly, we do accept the word social as a synonym for dances, parties, dinners, and other like the social transfer that which forms the provide the whole field of the social Christian layman.

If you have the state of the state of the perfect that the state of th

to see the second considering the same calling—to be men of God.

But passing from these generalities, we come to the more concrete forms of social life that we find around us. In the dancing field we sport the football and backetball dances the Officers Ball brings a night of enjoyment to the Class Brass; and finally in May, the Cretin Junior-Senior Prom ends the main social life for that year.

This perspective of the social life existed as the high school became distinguishable as such. As far as history goes, the social life of a high school doesn't do much changing because the existence of this essential seems to have reached the zenith and is held at this point under the careful eyes of the Brothers who have as their main purpose attempting to bring the strange composite which makes up the Cretinite to the One who has been the complete exemplar of life, divine, social, or otherwise.

SCHOLASTIC

Thought finds its birth in the dwin iling cears of the adolescent a period propared for by a series of boring studies consisting of memory work and pairot recitation. This preparation gives us our fundamentals of learning and sets our thought pattern on the straight and narrow road of correct thinking.

This in these ten words is the history of the scholastic life at Cretin a metapoophies s of youth producing an english evere as each

tave others do this for him is a process eas a taking the four years or even more Setting thes plan in motion takes a carefully planned currentum which eases into the grit promotion in the freshman year, groundly asks for it in the sophemore and the series, and in the senior year demands it

When the student is equipped with a well developed intellect he has the power to become a member of a minute group of men, alose brettern and sometimes an intrinsic part of the cultimal man, the educated man. Why lo we bring this in? Its sole pur pose is to show that there is a perfection even in the lower postulence of school which seems to most only a childhood affil tion and tearning stops when the institution of learning is no longer frequented. But education is as lasting as mortal life.

What is the enemy lar at the start at the educat to and Who an define something so far above the resection of new kard. We use at a miserally it as tried to show in at this creature is hat we can tell how he differs and agrees with some of the basic concepts of today.

We see that the second of land to second the second to the second to the second of land to second to the second of land to second to the secon

The scholastic element at Cretin is but a mere reflection of this colossus of learning But we can boast that it has a large scope of potential knowledge with the broad commercial and college prep courses which have been so set as to encompass every field and after school activities bring more interest in the Cretinite and the political and natural sciences. In 1921, as a supplement to the school work a Senior Science Club was formed—the tarner of the Chemistry Club. Tust this year, a Physics Club was started to renew interest in the subject. World and national problems were the main concern of the thirty year old delating society. Many good elements such as book clubs have been jost to the flurry of the high school life but through the years the Cretin spirit has been preserved in an altogether non-educational field through the Leadership Club which had for its purpose, at least in its intarcy to bring Cretinites to support themselves to bring the right tenor which would facilitate the run of the school so that it may completely fulfill its purpose of bringing knowledge to the students so that this finite gift put to good use might develop a wisdom as the consummation of their toil.

the provincial, and this brought the response that the schools now being taught were short of instructors.

The sun rose uneasily on the Chicago horizon on a summery October day and by nightfall its light was no longer needed, for the city was in flames. Everything fell before the hungry blaze, the brothers' schools being no exception. With the Minnesota winds ushering in the winter chills, two Brothers of the Christian Schools, Jucondian and Porphyrus, arrived on All

Soul's Day, 1871, released by the seemingly providential cataclysm.

Cathedral School progressed and even under the eyes of the perfectionist, Father Ireland, the training could show few flaws. Besides instilling in the youths the basic principles of Christian in the posterior of authorizing and entanglements of English were unfolded to the more eager students and unleashed upon the unsuspecting and less eager.

The we look upon the but still boards around the braiding and the trestandard captum under poins pictures about relicious. This the Vications. This phrase has pushed the term vocation is selectional systems are sometimes with the life of the missionary or teading run. It has put the normality of marriage and the life of the lighter as something imperfect it should say. Under the guidance of the Brothers and in some cases through the Senurs own matative, the journalistic viewpoint has been opened to anyone generous with his time—as simple as that The first (Int | Note and or or or or and the view of the first limit is a surger companion to (NMINI was stated by Brother John Berns on and was been makes it possible for the publications to be active and vital

Ently the main parts that constitute the concrete constants of the day directives show the Christian patriot in the field and, in practice is a large control we are decorated as say that our future has not been no be to be not to this school. We are kept aware test on hot us has a part to play in this world, and when we have taken our last bow of our last performance, then must we be a success without quotation marks.

With a growing enrollment the basement quarters were kept is in a last with the last that the last that the record rooms with the instructors having their rooms on the second. With these changes and remodeling, the building seemed to be the worse off and again fire caused the course of Cretin's history to be a last that the last that the last the last that the last the last the last the last the last the last that the last the last

alarm, soon enough to save the skeleton of the deteriorating mansion. Patching it up did nothing but keep the rats warmer at nights when they had the run of the school after all was peaceful. It was more or less a race between the City Council condemning it as a fire hazard or start erecting a new center of learning through the initiative of the clergy. This initiative was supplied by the retired Bishop Grace and Monsignor Ravoux, and in March, 1888, Cretin High School came into being

This section will be begun by none of the other high sounding ideals and-well, you call it whatever you want. First thing we want to point out is that Cretin High School is great in the eyes of the public from the street I go ils W y I' il I bake I'm water in ile charespoon aber ex-Cretin boy, Johnny O'Gara sent a letter to "Wee" Walsh with the following history:

"Cretin High School baskethall teams have established a record that

will stand with the best in the state."

Derties to the transfer of the part of the n. L.S. AM AM A A GERS LESS present coach, William 'Wee' Walsh from 1942-43 to 1944-45. 'Wee's' Cretin teams have won 133 and lost 32 since 1945-46, when Wilter Level 1 and a contract of the contract ars to a second to the second annexed by Cretin, these during 1938, 41, 42, 43, and 1946. "There have been twelve State Cutholic Meets and Cretin has won three, in 1942, 1943, and

Cretin has been in ten of the twelve Tournaments thus far held."

"Cretin High School basketball teams have competed in the National Catholic Tournament in Chicago four times from the 1937-38 season to 1941-42, when this tournament was held for the last time. The Raiders played a total of ten games during that time and won seven and lost three. Their efforts resulted in winning the Consultion title in the March of 19,8 when, after osing to Mount Carmel, 43 to 40, they went on to defeat three eastern teams and defeated Saint

Thomas of Saint Paul in the finals of the Consolation round.

"From 1937-38 to this year, Cretin has played against Saint Paul City Contreence teams 89 times winning 8 and los goody 11. In the Catholic League competition, the Raiders have won 127 and lost 34. The Raiders have met the Junior Toms 35 times during the past fifteen years and have won 24 of those games Against De La Sale it's 20 to 13 in the ref Cretin In the period from 1941-42 to 1944-45, five years, Cretin won 108 games and lost 13, scoring 4,707 points to their opponents 2937. This is the test of any Cathelic team in the state for a five year won and lost record and still stands. Cretin also holds the lead in placing boys on Conference and All-State teams."

> The purpose was to show our superiority in this field of athletics. Our other teams have probably not such an enviable record, but there is one principle of team spirit that does seem to be in the category of this physical section. From our outlook, this element fluctuates with the sports; some are neglected and some receive the whole-hearted uttendance, for the Cretin support is fickle

> But to return to this physical development we find that it is properly aligned in its position as an extracurricular and has just as great a potentiality for completeness but not the necessity for it as would the formation of the inner man. For though man is essentially a composite, the perfection has beneath the material, but without the material

would man exist-

as far as name, taking the founder's namesake and incorporating three classes of secondary education besides the regular eight grades. Each student taking a brick from the ruins brought this memento from the old archives at Wabasha between Sixth and Seventh to the new halls of education at Sixth and Main. As America grew so did this little school in down town Saint Paul. New subjects, such as chemistry and physics, were added in the early 1900's and finally because of crowded conditions and the opening of another grade school. Cretin became essentially

a high school when the lower classes moved out in 1914.

With world unrest and military interest, an ROTC unit was made an essential part of the curriculum in 1917. Uniforms, that seemed to have the sole purpose of causing leg gangrene, came the following year causing the Cretin cadets to use the knicker pants as a good substitute for lockers.

During the early twenties a birth of extracurriculars was notable with the arts and athletics coming into prominence. In all these fields the brothers excelled and acted as moderators

All the other sections that have been covered have stressed the element of perfection. What Cretin was, is, or will be has not been stressed. A few insignificant dates have given this section some semblance of being historical and in a true sense this plan of telling what Cretin has accomplished in the last hundred years has only been hinted at in a few vague generalities. To tell you the truth Cretin High School has accomplished two things—a better building and better teachers.

tabulated we will know how Cretin has progressed

That is the answer why this history is so incomplete as is every history. This element of perfection has to be answered for. Why did we bring it in when we can not attain it? True, we can't but it

the existence of these factors in Cretin show that some are looking to higher interests.

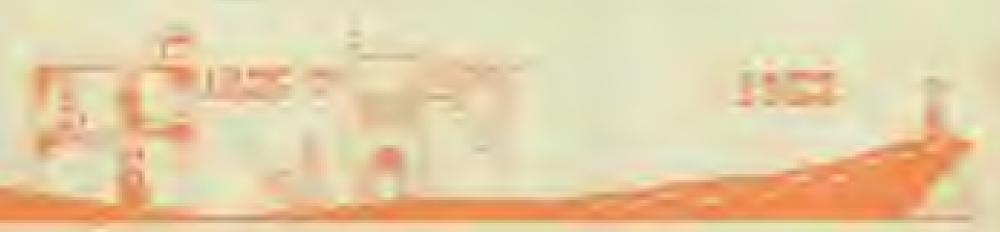

In every aspect, whether social or scholastic or anything, there has entered the point of generosity, a long word for charity, and a longer word for have the north of the long that the does have the religious for another without craving that he had not been able to the long that th

"Oh God, teach me to be generous, to serve You as You deserve, to give to seek for rest, to toil and not to seek for any reward save that of knowing that I do Thy will."

The religious aspect becomes more prominent with the student's growth in this study. We said that hie is a continual process of learning, but in this case, religion is not a subject but a practice. The who takes within himself the Lord, so will the Lord take learning man pater, the said of the pate of the large transfer to the Infinite. In the cultural man's search for beauty, he finds the inspiration in the All-Beautiful; the social Christian by guiding himself in the right vocation sees. He was all the pater of the pa

will be mingled in the imperfect Modern Man. Today's Cretimite is this future Modern

Man.

of the activities and when athletics became more work, lay athletic directors took over their duties. With this growth mentally it obvious again that the school at Sixth and Main was too small. This, however, was not the main cause for the abandonment of the brick edifice, for the city declared it a hazard to the student body and the building was officially condemned strating a point too emphatically. In the April of 1927, the cor-

nerstone of the present Cretin was laid, and the September of

but through our predecessor's dreams and realization of these by the developing of the Cretinite in the indestructible alloys at the cultural, social, educated, physical, and spiritual man-a voung man in search of the Wisdom of the ages—Truth.

As was stated previously, Brother Leo Vincent was with the class of "52" from the moment that they entered Cretin. The freshman year was one of little activity, due mostly to the fact that the boys were all getting used to the new high school setup. Then came the sophomore year and along with it came a new advisor for room 202. He was taking the place of Brother Michael, who had been very popular not only in his own advisory, but throughout the entire school. This new Brother knew the man he would have to replace, and he was ready to meet the challenge. He was hardly a man of little experience, although he was comparatively young. He had already taught for several years at St. Mary's College, where he handled the veterans and was very popular with them. He had also taught at Boy's Town and consequently knew much about the way boys thought. This new teacher was Brother Hyacinth Frederick. He was a conscientious man and, upon arriving at Cretin, made it a point to become acquainted with the moderator of the class of "52", Brother Leo Vincent. Upon their first meeting, the mutual approval was spontaneous. It was as if someone had thrown a match into a gasoline tank. Both Brothers saw in each other the man that

for the most part, realized.

Brother Frederick, himself, is a very unique man. His talents are numerous and he has always endeavored to develop them to their fullest extent. In college, he majored in mathematics, a field in which he was well versed to say the least. His experience in Boy's Town and in dealing with war veterans gave him a keen interest in the workings of the human mind and, as a result, he received his Master's Degree in the field of psychology. When it came to the use of his time, Brother Frederick was a genius and it can be said truthfully that he never wasted a minute in his life. He maintained that a person has such a little bit of time in this life to serve God that he should never misuse it.

Brother Frederick was almost immediately taken to the hearts of all who had him in class, for he had a sincere interest in every student and tried to the utmost to give each class all that it could receive out of the particular course. His sincerity and genuine interest in the student was of a type that it could not be fully realized in a classroom. Those who participated in the extra curriculars which Brother handled soon realized that here was a man who was always willing to help any boy who would cooperate. Many boys took advantage of this opportunity and today are still realizing new things that Brother Frederick taught them. More than one boy was changed completely by his contact with this understanding man. He had a way of making each boy feel like his closest friend, and these boys, through this friendship, were taught to bring forth their own qualities of leadership, depend-

ability, and straightforwardness.

In order that he might live up to his principle of wasting no time, Brother Frederick used his time after school and after supper, not to mention Saturdays, Sundays, and holidays, instructing the students in various extra curricular activities. His first exposure to such duties at Cretin was one he will never forget. He and Brother Leo Vincent put their heads together and came up with an enormous idea, at least it was unique at Cretin. They proposed to put on a full scale stage production. They chose Victor Herbert's "Red Mill". This undertaking was the more difficult because Cretin had no dramatic club and the choristers had been singing, under the direction of Brother Leo Vincent, for only a few months. These two dreamy eyed showmen believed that the boys at Cretin had more than enough talent to stage a "professional" show. Plans began. Scores were passed out to the cast, and the long hard grind continued for months. Brother Frederick took charge of the acting and general staging of the production, while Brother Leo Vincent handled the musical elements. The final result was far above early expectations. It was obvious that the two Brothers had begun a series of taking long chances and getting big successes. The next year began with a bang. A dramatic club was introduced and the approval of it was widespread as is evidenced in the fact that forty students attended the first meeting. Brother Frederick was the moderator, but Brother Vincent never left his side and at times he may have sweated more than the appointed director. All the plays staged that year were huge successes and the genius of the Brothers was finally realized by everyone.

Brother Frederick, however, was resting uneasily between plays claiming he had nothing to do and so he initiated the Cretin Debate Team. Once more he instilled his own vitality into the debaters and Cretin's first season was a huge success. In addition to these activities Brother Frederick advanced his own advisory to the top position in the department by placing them in several activities and urging them on to attaining one of the best scholastic averages in the school. He also started a book club whose members met weekly to discuss great books. Amid all this activity the Brother, who had to start the Debate Team to occupy his time, was taking psychology at the University of Minnesota. This in itself is enough to keep the average man more than busy, but

as has been pointed out, Brother Frederick was far above average.

With so much success accompanying their every endeavor and most of the boys with experience coming back for another year, everyone looked forward to "51-52" as a blue ribbon year. This illusion was soon cast aside for it was announced that both Brother Frederick and Brother Leo Vincent were being moved elsewhere. No one will ever know how the boys missed them. No outward show of remorse was evident, but every kid who had worked with these two will always remember them as two of the greatest, kindest, and most understanding men that they have ever met.

The name of Brother Frederick will always find a spot in the hearts of the boys who owe so much to him. There will always be another spot immediately next to this one for Brother Leo Vincent. The thought of one of them is essentially coupled with the thought of the other, and they may be assured that these thoughts will be present as long as those boys are around. Our heartfelt

thanks, therefore, go to these two men who have given us so much and to whom we can give only our thanks.
